| G. H. PEEBLES, M. D., .....       | “ “               |

## CALENDAR.

Regular Session begins Monday, October 5, 1885.

Holiday Vacation, December 23, 1885, to January 4, 1886.

Session closes March 27, 1886.

## CORRESPONDENCE.

Letters of inquiry in connection with patients desiring to appear for clinical treatment should be addressed as follows:

*Surgical Cases*—DR. GEO. B. AYRES, Omaha, Neb.

*Medical Cases*—DR. L. F. McKENNA, Omaha, Neb.

*Surgical Diseases of Women*—DR. G. H. PEEBLES, David City.

*Eye, Ear and Throat*—DR. J. C. DENISE, Omaha, Neb.

Inquiries relating to the College, to the Secretary of the Faculty,

EWING BROWN, M. D.,  
Room 4, Creighton Block, Omaha, Neb.

Students upon arriving should leave their baggage at the depot until they procure rooms, thus saving the expense of transfers. Good board and lodgings can be obtained at from \$3.50 to \$5.00 per week. By clubbing, the expense of living can be greatly diminished.

## FEES.\*

|   |         |
|---|---------|
| MATRICULATION FEE, (paid but once) .....            | \$ 5.00 |
| FOR LECTURE TERM, .....                             | 35.00   |
| DISSECTING TICKET, (material furnished at cost) ... | 5.00    |
| GRADUATION FEE, .....                               | 25.00   |
| HOSPITAL TICKET, .....                              | 5.00    |

PRACTICAL CHEMISTRY.—Students taking Practical Chemistry will be required to deposit with the Treasurer \$5.00 to cover the use of chemicals and breakage. The expenses of the course will vary with the prudence and economy of the student.

The matriculation fee and fee for lecture term must be paid when session opens. The dissecting fee must be paid at the time students begin their practical work in the anatomical room.

Students who intend to present themselves for graduation, must deposit the graduation fee with the Secretary on or before the first day of February. In case the candidate fails to pass the required examination, \$15.00 will be refunded to him.

A resolution of the Board of Trustees provides that a graduate of any respectable and recognized medical college, who may desire to attend this college, be permitted such attendance on the payment of the matriculation fee only.

---

TEXT BOOKS.

The following Text Books are among the best now in use:

Anatomy—Gray, Wilson, Quain, and Allen's Atlas.

Physiology—Flint, Dalton or Yeo.

Chemistry—Attfield and Miller.

Material Medica—Bartholow, H. C. Wood, Jr.

Surgery—Gross, Erichson, Holmes or Agnew.

Obstetrics—Playfair, Leishman or Bedford.

Diseases of Women—Thomas, Emmet or Barnes.

Diseases of Children—J. Lewis Smith, Meigs and Pepper.

Practice of Medicine—Bartholow, Roberts, Reynolds, Da Costa on Diagnosis.

Histology—Beale or Frey.

Pathology—Delafield, and Prudden Quain's Dictionary of Medicine, Cornil and Ranvier.

Ophthalmology—Soelberg Wells, or Stellwag.

Otology—Turnbull, Roosa or Toynbee.

Laryngology—Cohen.

Dictionary—Dunglison.

\*No portion of the fees can be refunded to students who leave the college during the session, except by special order of the Board of Trustees.

## FACULTY.

J. C. DENISE, A. M., M. D., *Dean.* ✓

EWING BROWN, M. D., *Secretary.*

VICTOR H. COFFMAN, M. D. ✓

Emeritus Professor of Principles and Practice of Medicine.  
OMAHA.

GEORGE B. AYRES, M. D. ✓

Professor of Clinical Surgery.  
1505 FARNAM ST.

P. S. LEISENRING, M. D. ✓

Professor of Obstetrics,  
706 SOUTH EIGHTEENTH STREET.

JACOB C. DENISE, A. M., M. D. ✓

Professor of Ophthalmology, Otology and Laryngology.  
1114 FARNAM STREET.

RICHARD C. MOORE, M. D. ✓

Professor of Materia Medica and Therapeutics.  
1505 FARNAM STREET.

G. H. PEEBLES, M. D. ✓

Professor of Gynecology.  
DAVID CITY.

H. P. MATHEWSON, M. D. ✓

Professor of the Diseases of the Mind,  
State Hospital for Insane.  
LINCOLN.

DONALD MACRAE, M. D. ✓

Professor of Surgery.  
COUNCIL BLUFFS, IOWA.

W. S. GIBBS, M. D. ✓

Professor of Physiology.  
ROOM, 7 CREIGHTON BLOCK.

JAMES CARTER, M. D. ✓

Professor of Chemistry and Toxicology, and  
Lecturer on Diseases of Children.  
209 SOUTH FIFTEENTH ST.

L. F. McKENNA, M. D. ✓

Professor of Clinical Medicine.  
CREIGHTON BLOCK.

EWING BROWN, M. D. ✓

Professor of General Descriptive and Surgical Anatomy.  
ROOM 4, CREIGHTON BLOCK.

L. J. ABBOTT, M. D. ✓

Professor of Theory and Practice of Medicine.  
FREMONT.

EDWARD W. SIMERAL, Esq. ✓

Professor of Medical Jurisprudence.  
OMAHA.

WILLIAM F. MILROY, M. D. ✓

Professor of Histology and Pathology, and  
Lecturer on Hygiene.  
2208 FARNAM ST.

M. B. CROLL, M. D. ✓

Demonstrator of Anatomy.

ANNOUNCEMENT.

---

In issuing this, the Fifth Announcement, the Trustees of the OMAHA MEDICAL COLLEGE take pleasure in calling the attention of the Medical profession, and their friends, to the changes that have been made since their last annual announcement was issued, and other important facts.

*First.* By a mutual agreement between the trustees of the two institutions, the OMAHA MEDICAL COLLEGE will hereafter be recognized as the MEDICAL DEPARTMENT OF THE M. E. COLLEGE OF NEBRASKA; each school retaining its separate and independent management.

*Second.* Prof. DONALD MACRAE, M. D. has been elected Professor of the Principles and Practice of Surgery.

*Third.* Prof. G. H. PEEBLES, M. D., has been elected Professor of Gynæcology.

*Fourth.* Prof. JAMES CARTER, M. D., in addition to the chair of Chemistry, will lecture on Diseases of Children.

*Fifth.* W. F. MILROY, M. D., has been elected Professor of Histology and Pathology, and will also lecture on Hygiene.

*Sixth.* The fees are but \$35, which is lower than that of any other Medical College not endowed, in the United States.

The practice of Eleemosynary instruction is often justly condemned, and while our fees are seemingly merely nominal, they are sufficient to assure the student of a self-reliant and independent position.

*Seventh.* Clinical teaching has always been a prominent feature of this school, and no effort will be spared to give students every advantage of this kind. St. Joseph's Hospital (adjacent to the College), the Free Dispensary of the College, and the private practice of the Professors, offer abundant material. Many operations are performed before the class, both in the College and the Surgery of the Hospital. Advanced students are required to accompany the Clinical Lecturer through the Hospital wards, and cases are assigned to the respective classes for diagnosis and treatment. In no place, save in one with the population of Omaha, sixty thousand (60,000) and upwards, can an adequate supply of clinical material be procured.

---

## HOSPITAL.

St. Joseph's Hospital, under the management of the Sisters of St. Francis, has been kindly tendered the faculty for clinical instruction. The visiting staff of physicians and surgeons are members of the faculty, and the hospital is under their immediate medical and surgical control. Students are thus privileged to reap a large benefit from clinical instruction, in all classes of medical and surgical cases. Patients presenting themselves at the clinics, are furnished with medical, surgical and gynæcological treatment free of charge.

---

## ADMISSION.

All candidates for admission to the OMAHA MEDICAL COLLEGE must present to the faculty satisfactory evidence of a good moral character, and must be at least eighteen years of age, and unless holding a certificate or diploma from a literary institution, must pass an examination in the English branches.

## COURSE OF INSTRUCTION.

---

### PRINCIPLES AND PRACTICE OF SURGERY.

The course on Principles and Practice of Surgery will consist of about forty lectures, and be illustrated in the practical part by operations on the cadaver — the application of bandages, and dressings. All material, splints and dressings, furnished free of cost to students. No pains will be spared to render the instruction and training of matriculants, thorough and practical. Advanced students will be trained in the use of instruments and appliances, and all the operations incident to an active surgical practice.

### THEORY AND PRACTICE OF MEDICINE.

It will be the plan of the professor of Theory and Practice of Medicine to make his lectures thoroughly practical. The course will consist of about fifty didactic lectures, delivered in the College lecture room, and will be so arranged as to be illustrated and verified in the wards of the Hospital, by the professor of clinical medicine.

### ANATOMY.

A course of General Descriptive and Surgical Anatomy will be given by Prof. EWING BROWN, consisting of three didactic lectures during the week, and in addition one hour of each week will be used for a general review and examination of the past lectures.

It will be the object of this chair to make its teachings as thorough and practical as possible; for this purpose the lectures will be thoroughly demonstrated upon the cadaver, illustrated by anatomical preparations of the museum, plates and charts, and daily instruction given in dissection.

### CLINICAL SURGERY.

Clinics are held every Wednesday and Saturday on all Surgical cases. Advanced students are permitted to examine important cases before presenting them to the class; after which all students are closely quizzed upon the pathology, diagnosis, prognosis and treatment of the same.

## CLINICAL MEDICINE.

Professor L. F. McKenna, gives two clinical lectures a week in St. Joseph's Hospital. Instructions on practical diagnosis are given special attention.

Second course students are formed into a class for diagnosis which is divided into sections of three students each. A patient is assigned to each section. Ample time and facilities are allowed for the examination of the case. A written report of the diagnosis and treatment is made by each member of the section in presence of the class, and the members are severally questioned concerning points that are suggested in connection with the case.

First course students are formed into a clinical class which is divided into sections of five members each. Cases are examined under the immediate direction of the professor.

No time or labor is spared to familiarize the student with the most practical methods of arriving at a correct diagnosis.

## OBSTETRICS.

In this department there are delivered three lectures weekly; and illustrated in such a manner as to thoroughly prepare students to become successful obstetricians. Advanced students will have cases of midwifery assigned them.

## PHYSIOLOGY.

The instruction in this department is given in didactic lectures. The teaching embraces the essential phenomena of digestion, absorption, circulation, respiration, excretion, the nervous system, and the reproductive apparatus. The truths taught are impressed by the use of the microscope, diagrams, and vivisections.

## MATERIA MEDICA AND THERAPEUTICS.

The lectures, three a week, are illustrated by a selected cabinet of drugs and preparations; special attention is also given to the late advances made in the department of therapeutics.

## GENERAL PATHOLOGY.

The student is instructed in the wonderful revelations of this advancing science, and, by careful drill in the use of the microscope, prepared for subsequent original research.

## THE EYE, EAR AND THROAT.

Didactic lectures and clinical instruction in this special department, are given by Prof. DENISE. The clinics are abundantly supplied with material and many operations are performed; advanced students are assigned cases for diagnosis and treatment.

## GYNÆCOLOGY.

Instruction in this important branch is given in didactic lectures, and from time to time the lectures will be illustrated by appropriate clinics.

## PRACTICAL ANATOMY.

The facility for obtaining subjects for dissection under the statute enacted by the Legislature of Nebraska, places at the disposal of the college the necessary amount of material. The anatomical room will be open from November 1st to the close of the session; and at stated hours the Demonstrator will direct the prosecution of the work in this department. Demonstrator's ticket must be obtained from the Secretary of the faculty, prior to the commencement of the dissection.

## PRACTICAL CHEMISTRY.

One of the important features of this College is the advantage offered for practical work in chemistry. Students, before presenting themselves for final examination, are required to complete the prescribed course in chemistry, including urinalysis.

## DISEASES OF CHILDREN.

A thorough course of lectures is given on the diseases incident to childhood, and the treatment of the same.

## DISEASES OF THE MIND.

The course of lectures on Diseases of the Mind will be given by Prof. H. P. MATHEWSON, M. D., Superintendent of the State Hospital for Insane, at Lincoln.

## HYGIENE.

The sanitary aspect of food, water-supply, ventilation, drainage, disinfection, disposal of the dead, etc., will be thoroughly discussed.

## EXAMINATIONS.

The members of the faculty devote a portion of each day to examinations on the subject of past lectures; special quizzes will also be held during the term on the different subjects taught.

---

TICKETS.

Tickets for the course will be issued by each professor at the beginning of the session on presentation of the Secretary's receipt for the payment of fees.

Certificates of attendance will be given by each professor at the end of the session.

Certificates of dissection will be issued by the Demonstrator.

While, in cases of sickness or other emergency, the faculty will act with all the leniency that a conscientious regard for the discharge of duty will allow, they wish it understood that their tickets are evidence of *bona fide* attendance upon the course of instruction, and therefore students are expected to remain until the close of the term. If they leave before the close, or absent themselves during the session, without consent of the faculty, their names will be entered upon the record as not having completed the course.

## GRADUATION.

The following are the requirements for the Degree of Doctor of Medicine :

1. The candidate must be twenty-one years of age, and must give satisfactory evidence of possessing a good moral character, with such primary education as is clearly requisite for a proper standing with the public and profession.

2. He must have pursued the study of medicine three years (lecture terms included) and have attended at least two full courses of lectures, of which the last must be in this institution.

3. He must have attended clinical instruction during the entire term of attendance in this college.

4. He must have pursued the study of Practical Anatomy, in the Anatomical room, to the extent of having dissected all regions of the body, and must have completed the course in Practical Chemistry.

5. He must have been in close attendance at all lectures delivered during the session. The degree will not be conferred upon any candidate who is often absent from the regular lectures of the college, or who is absent from the public commencement, without special permission of the faculty.

6. He must notify the Secretary of the faculty of his intention to become a candidate, and deposit the graduating fee; certificates of moral character and time of study, on or before the first day of February.

7. Every candidate must undergo a full and satisfactory written and oral examination on each branch taught.

## MATRICULANTS.

1884-85

| <i>Name</i>            | <i>Residence.</i> | <i>Preceptor.</i>              |
|------------------------|-------------------|--------------------------------|

Alumni are requested to notify the Secretary of change  
of residence.

M. O. RICKETTS, M. D., *Secretary*,  
Omaha, Nebraska.

## M. E. COLLEGE OF NEBRASKA.

---

Department of Theology—Garrett Biblical Institute, Evanston, Ill.

Department of Medicine—Omaha Medical College, Omaha, Neb.

Department of Literature, Music, Business and Art, located at York, Neb.

### LOCATION.

This institution is located at York, which is about the centre of population of the State, is the county seat of York County, and a city of 3,000 inhabitants. It is a strong temperance place, no saloons being allowed to exist therein. This is also a decidedly religious community, nearly every branch of the Christian church having societies here, and all laboring together to make a public sentiment in favor of religious principles. York is on the Nebraska Railroad, fifty miles west of Lincoln. This road runs through the most populous and one of the most rapidly growing portions of the State. It makes connections with other roads at Nebraska City, Lincoln, Seward, Aurora, Central City and Grand Island.

The next term will open Thursday, Sept. 17th, 1885.

### SPECIAL NOTICE.

Arrangements have been made for students of this institution to travel on the U. P. and B. & M. R. R. at half fare, at the opening and closing of all terms. Those who desire this reduction must address the President of the institution thirty days before the opening of each term, and he will obtain from the General Ticket Agent special permits. Send a two-cent stamp with application, in order to insure attention.

For further information, please address the President,

EDWARD THOMSON,  
Lock Box 120. YORK, NEBRASKA.

## FACULTY.

REV. EDWARD THOMSON, S. T. B., PH. D., *President*.  
Professor of Ethics and Psychology.

MRS. ELLA A. THOMSON, M. E. L.,  
Preceptress and Professor of English Language and History.

REV. WILLIAM PECK, A. M.,  
Professor of French and German Languages and
