HISTORY AND PHILOSOPHY

The University of Nebraska School of Nursing was established within the College of Medicine as a three-year diploma program in 1917. The present baccalaureate program, authorized by the Board of Regents in 1950, leads to the degree of Bachelor of Science in Nursing and enables the graduate to continue into master's level study.

In keeping with the philosophy of the University of Nebraska, of which the School of Nursing is an integral part, the faculty accepts its responsibility to society for promoting a high quality of professional nursing service to individuals, families, and the community through teaching, research, and service. The faculty of the School believes:

Each student is an individual with certain basic needs and a unique potential for learning, for growth, and for accepting responsibilities. Toward this end opportunities for learning should be provided which will encourage her to maintain her individuality, think critically, become self directive, and make worthwhile contributions to social groups.

Professional nursing practice encompasses knowledge, values, and skills concerned with the basic needs of individuals, prevention of illness, promotion and maintenance of health, rehabilitation, cooperative relationships, and the application of scientific principles in planning, providing, and evaluating nursing care rendered by self and others. Therefore, curricular offerings and guided learning experiences should be planned and organized which will enable the student to acquire specific nursing knowledge, values, and skills. In addition, curricular offerings and guided learning experiences should be focused on: the development of leadership qualities, the discipline of problem solving, the development of effective interpersonal relationship skills, habits of study, and the importance of professional and citizenship responsibilities.

Professional nursing education is achieved through a synthesis of general and professional education; therefore professional nursing education should be offered in a baccalaureate program where curricular offerings and learning experiences provide for both a liberal and professional education. Curricular offerings should include a study of the biological, physical, and social sciences, and the humanities as well as the study of nursing and the related sciences.

Learning is an active process which occurs through participation on the part of the learner, and it is manifested by changes in behavior which persist. Accordingly, the acquisition of knowledge, skills, and values, should be enhanced through class room participation, independent study, and guided clinical experience in all areas.

The purposes of the School are based on these beliefs and are directed toward the preparation of:

- A responsible person with a foundation for self understanding and self direction, which will enable her to strive toward personal, professional, and social fulfillment.
- 2. A practitioner of professional nursing who possesses a liberal education as well as knowledge and competencies needed to give professional nursing care to people of all ages in any setting and prepared to advance without further formal study to positions requiring beginning administrative skills.

- A professional person who is able to accept professional and civic responsibilities.
- 4. An educated person with the foundation for continuing professional development and graduate study in nursing.

EDUCATIONAL FACILITIES

The resources of the Medical Center, devoted to the advancement of medical and nursing knowledge through research, teaching, and health services, provide opportunities for learning. In addition to the classrooms and laboratories of the School of Nursing and the College of Medicine, the other clinical facilities which are available include the University Hospital and Out-Patient Department, the Nebraska Psychiatric Institute, the University of Nebraska Rehabilitation Center, The Eugene Eppley Foundation Cancer Research Center, the Children's Rehabilitation Center, the Omaha-Douglas County Health Department, the Douglas County Hospital, and Veterans Hospital. Nursing students receive instruction and practice in these agencies under the guidance and supervision of the faculty of the University of Nebraska School of Nursing.

The University Hospital.—The University Hospital, where the students obtain clinical experience, is on the College of Medicine campus. Since the medical faculty constitutes the hospital staff, medical assistance in the clinical instruction of student nurses is readily available. The hospital, which has a capacity of 213 beds, is general in character and accommodates an active service in all its departments. The hospital provides teaching facilities for medical-surgical and maternal-child nursing.

The University Out-Patient Department.—Ambulatory patients representing the major medicinal specialties are cared for in the University clinics. Here the nursing student furthers her knowledge and skills related to patient needs, with emphasis on economic and social factors affecting the patients' welfare, and learns to appreciate the need for continuity of care.

The Nebraska Psychiatric Institute.—Located on the College of Medicine campus, the Nebraska Psychiatric Institute is a 104-bed hospital administered jointly by the Department of Public Institutions and the Board of Regents.

Nursing students receive instruction and clinical experience in psychiatric nursing in the acute and convalescent adult services, in the treatment area, and in such specialized departments as occupational therapy, recreational therapy, research, children's ward, and day-patient service.

In addition, students attend and participate in interdisciplinary conferences through which they gain appreciation and understanding of the psychiatric team's role in the treatment, care, and rehabilitation of the mentally ill. Preventive aspects also are stressed.

The Visiting Nurse Association—Division of Public Health Nursing of the Omaha-Douglas County Health Department.—This combination agency provides all types of public health nursing commonly rendered by a health department and a visiting nurse association. These services include (1) nursing service in the home, (2) maternal and child health program, (3) school program, (4) immunization clinics, (5) acute communicable disease control, (6) tuberculosis program, (7) rehabilitation, including follow-up care for mentally ill patients discharged from the hospital, and (8) nursing homes and homes for the aged.

Veterans Administration Hospital.—The United States Veterans Administration Hospital, which is located near the campus, provides addi-

tional facilities for medical surgical nursing. Students receive experience in this agency under the guidance of faculty from the University of Ne-

braska School of Nursing.

Community Facilities.—Additional facilities within the community which are utilized by the School are: Home for the Deaf, Child Saving Institute, Speech Center (University of Omaha), Cancer Association, Tuberculosis Association, Heart Association, Juvenile Court, Youth Center, homes for the aged, state psychiatric institutions, nursery schools, Goodwill Industries, city sanitation facilities.

Library.—The library of the College of Medicine contains more than 100,000 bound volumes and 25,000 pamphlets and reprints devoted to medicine and nursing as well as more than 1,400 standard medical and nursing periodicals. There is provision for the addition to the library of important books, pamphlets, and periodicals on subjects of special interest to nursing, and also on such allied subjects as social sciences, psychology, and education. Books may also be withdrawn at any time upon request from the University Library at Lincoln, which contains more than 750,000 volumes, and from the Omaha public libraries. The scientific library in the Medical Center is recognized as one of the outstanding ones in the region.

ADMISSION PROCEDURE AND REQUIREMENTS

Application for admission to the freshman, pre-nursing, year should be

made directly to the college or university selected.

You should start your pre-nursing program in the summer session following high school graduation. Admission to the School of Nursing is in June *only* of each year. You should take chemistry during the summer if you are to have any flexibility in qualifying for the School of Nursing by the following June. By taking chemistry in the summer, you will lighten your course load for the next two semesters. You will also have an opportunity to clear up any deficiencies or repeat a course, if necessary, and still enter the School of Nursing on schedule.

ADMISSION TO THE UNIVERSITY OF NEBRASKA

Application.—You should make your application for admission to the University at the earliest possible date during the semester preceding your expected enrollment. For example, if you are a high school student you should apply during the second semester of your senior year if you wish to enter in either June or September. Transfer applicants should apply during the second semester, supplying transcripts including grades for all work previously completed and an indication of work in progress. To obtain application materials, write or go to the Director of Admissions, Administrative Building 208. The forms should be returned to the same office as soon as they have been completed by the proper persons.

A fee of \$10 must accompany the application for admission of all nonresident applicants (except aliens). This is nonrefundable unless the applicant is eligible for admission and enrolls in the University of Nebraska. Upon enrollment, the \$10 deposit is applied toward the appli-

cant's tuition fee.

All aliens (foreign students), regardless of residence, but excluding persons who have commenced their naturalization process, are charged an application fee of \$5. This fee is nonrefundable; however, if the applicant enrolls, the fee will apply toward payment of tuition and fees. This fee should accompany the application for admission. Scholarships and

other financial aids are not available to aliens during their first year of enrollment at the University.

Entrance Requirements.—Entrance requirements to the University are dependent upon your educational status and your official residency classification.

1. All applicants for transfer to the University from other collegiate institutions must have cumulative averages of C or better to be considered for transfer. This requirement applies to residents as well as nonresidents of Nebraska. Usually college credit earned from an accredited college is acceptable to the University of Nebraska. Credits with a D grade are not accepted. As a general policy, the maximum number of credits a student may transfer from an approved junior college is 66. Credits in excess of 17 semester hours earned in any one semester and credits earned in excess of 8 semester hours in an eight-week summer session must be approved by the Advanced Standing Committee of the college in which the student plans to enroll. The Advanced Standing Committee consist of the college Dean and the Registrar.

2. Graduates of accredited Nebraska high schools (and those who will receive their diplomas in May, June, or August preceding the September entrance date) are eligible for admission to the University if their records will include 16 units from a four-year high school or 13 units from a three-year high school. A unit is one year's work in one subject.

3. Graduates of nonaccredited Nebraska high schools who have made acceptable scores on the University Regents Examination or on the University's comprehensive placement examinations, given in Lincoln without charge, or on the College Entrance Examination Board tests, the National Merit Scholarship Qualifying Test, or the American College Test may qualify for admission if they have presented the units of credit noted in paragraph two.

4. Nonresident applicants, including foreign applicants, will be considered only if they have graduated from an accredited secondary school and:

a. Rank in the upper one-half of their graduating classes,

b. Present a suitable recommendation from the high school principal,

c. Present scores on the College Entrance Examination Board Schollastic Aptitude Test and on three CEEB achievement tests including English, mathematics level one (standard), and one other achievement test selected as appropriate to the applicant's desired area of study.

5. Mature adults who have not graduated from a secondary school but who present, on the University's placement tests, satisfactory evidence of their ability and preparation to do University work may be considered for admission.

Admissions Deadline.—The admissions deadline for the fall semester is the Friday following the end of the eight-week summer session. In 1966, the deadline is August 12. However, it will be to your advantage to complete your application and receive your letter of admission much earlier. This will improve your chance of reserving space in the University residence halls. Late admission may be granted if it is clear that circumstances beyond the applicant's control prevented earlier application and if classroom space is still available.

Since classroom space will be allocated only after a program of courses

has been approved by an adviser, the late applicant may not be admitted to all the courses he may request.

Early Registration.—The University of Nebraska has a unique plan for processing applications of prospective students and of reserving class spaces for them in the courses they have chosen. Students who are currently enrolled have the same privilege of registering early to be sure space will be available when they report to classes the next term.

If you are about to enter the University as a freshman and want to

reserve space in classes you can do so by following these steps:

Obtain the necessary application forms from the Director of Admissions and be sure you return a complete application, including a transcript of your high school record through the seventh semester.

2. Study carefully the recommended program the Junior Division will

send to you a month or so after you have been accepted.

3. Talk with your parents and high school teachers about the program recommended for you by the Junior Division.

4. Send in the health examination report from your family physician.

5. Sign and return your program, with a \$50 class reservation deposit, to the Bursar. The sooner your program, class reservation deposit, and health examination report are returned, the sooner your class schedule will be prepared for you.

Completing Your Enrollment.—Registration and the payment of fees are required of all who attend classes. Detailed directions for completing registration are distributed to new students along with certain forms which must be completed and returned in order to reserve class space.

The class reservation fee will be applied toward tuition until the last day of registration in the term. The balance of tuition and fees may be paid in advance or payment can be deferred in accordance with the terms contained in the detailed instructions.

Medical Examination.—Before you register at the University, you must have a complete medical examination by your family doctor. This examination is an essential part of the registration procedure. One of its purposes is to determine your physical education classification or ROTC eligibility. These examinations are necessary also for the protection of the student body as a whole, and they work to your individual benefit in uncovering health defects that can be corrected. Furthermore, your physical condition is something you should know about and understand.

ADMISSION TO THE SCHOOL OF NURSING

The additional application forms required in order to progress into the School of Nursing should be completed prior to or during the fall semester of the freshman year. School of Nursing application blanks can be obtained from the Director of the University of Nebraska School of Nursing, 42nd Street and Dewey Avenue, Omaha, Nebraska 68105.

The State Board of Nursing requires each applicant to produce evidence of citizenship or show that the naturalization process has been initiated.

The Admissions Committee reviews the record of each candidate individually on the basis of graduation from an approved or accredited high school, the applicant's academic records, personal references, test scores, personal qualifications such as physical and mental health, and broad interests in order to determine his apparent potential for successful completion of the collegiate program in nursing and promise of competent performance as a professional nurse.

No new applications for the current summer session will be accepted after May 15.

Those who intend to study nursing should present high school credits as follows:

4-YEAR HIGH SCHOOL

Science 2	units
	units
Social Studies	units
Mathematics 2	units
Physical Education 2	units
Torcign Danguage	units
(Language recommended but not required for B.S. in Nur	sing.)

Married students are admitted provided they meet all other requirements. Those who marry while in school must submit a letter of consent from their parents and must consult the administration to prevent conflicts in scheduling.

BASIC PROFESSIONAL PROGRAM

High school graduates should enroll in college in the summer term to assure sufficient time to meet the pre-nursing requirements.

The basic professional program leads to the degree of Bachelor of Science in Nursing. Completion of the present course of study requires four academic years plus two summer terms of nine weeks each. The freshman year is spent either on the main University of Nebraska campus in Lincoln or at another accredited college. This year of instruction provides both a foundation in general education and an orientation to the profession of nursing. In June, at the end of the freshman year, nursing students enroll in the School of Nursing on the College of Medicine campus in Omaha.

Your eligibility for progress into the School of Nursing is dependent upon your earning 31 or more semester credits and maintaining an overall grade point average of 2.5 with no grade below a C in all freshman courses, excluding physical education. Credits earned at another accredited college can usually be transferred, except that credit for courses in which grades of D have been obtained cannot be transferred.

Curriculum Design

Freshman Year

The following course requirements must be satisfactorily completed before you transfer to the School of Nursing on the Omaha campus:

	Credits
English 1 and 2, English Composition	. 6
Chemistry 1 or 3, Elementary General Chemistry	
Chemistry 6 or 24, General or Analytical Chemistry	
Zoology 1 and 2. Introduction to Zoology	
History—any sequence of American or European History	. 6
*Nursing 60, Introduction to Professional Nursing	. 1
Elective	.0-2
Sociology 53, Introduction to Sociology	. 3
3	1-33

If you elect a second year in the College of Arts and Sciences you will be able to choose a wider range of subjects. Additional courses may be chosen from the following:

^{*} May be taken by correspondence. Write to the Extension Division, University of Nebraska, Lincoln, Nebraska 68508.

Foreign language, Social Sciences (except Psychology 70 and 189), English (except Literature 21 and 22), Physics, Mathematics, Philosophy, Electives in other areas.

If you wish to qualify for an honorary society you should refer to the requirements outlined in the College of Arts and Sciences bulletin.

After you have completed the requirements listed above, you may apply for admission to the School of Nursing. The nursing curriculum must be taken in the following sequence:

Chemistry 51, Biochemistry and Physics 5		red

GRADING SYSTEM

The passing grade in the School of Nursing is 2 (C) with an over-all term average of 2.5.

The relative values of letter grades, number grades, and percentage grades are:

Grade	Grade Weight	Percentages
A	4.0	90-100
В	3.0	80-89
C	2.0	70-79
F	1.0	69 and below

W—Withdrew in good standing. (Does not affect average grade.)

I — Incomplete. (Average grade is not affected until the incomplete has been removed, which must be done within two years.)

To compute semester and accumulated averages, multiply grade points by credit hours for each class, add the results of all classes, and divide by the number of credit hours:

Example:

Grad	le Weight		Credit Ho	ours	Grade Points
	3	x	3	=	9
	2	x	5	-	10
	4	\mathbf{x}	3	=	12
			-		_
			11		31

 $31 \div 11 = 2.818$ (the grade point average, which is a high C)

No credit is given for failing grades; the failure becomes part of the permanent record and will not be removed from the record even if the student satisfactorily repeats the course. If an instructor finds he has made an error in submitting a failing grade, he and he alone has authority to correct the error.

CONTINUATION IN THE SCHOOL

Successful completion of each semester's program is determined by the quality of your personal and professional development and academic achievement.

Attendance at all class and laboratory activities is required. Exceptions must be arranged for on an individual basis.

A student may be placed on probation whenever achievement is unsatisfactory. Regular standing must be restored within a given period or by the end of a particular semester if the student is to remain in the School.

The faculty of the School of Nursing reserves the right to recommend, at any time, the withdrawal of a student whose personality, health, conduct, or scholastic standing makes it inadvisable for her to remain in the nursing program.

EXPENSES*

ON THE LINCOLN CAMPUS

Expenditures of \$1,665 on the Lincoln campus will be common for a great many Nebraska resident undergraduate students during the academic year (two semesters). This figure is an estimate of the basic items of tuition, fees, food, lodging, books, personal maintenance, recreation, and modest travel. Expenditures of nonresident students will run \$526 a year more because the nonresident tuition rates are higher. Dormitory room and board are \$735 for an academic year.

If you are a legal resident of Nebraska and carry 12 or more semester hours in any semester, you will pay a blanket fee of \$167 each semester. If you are a nonresident, you will be charged a blanket fee of \$430 each

semester.

The summer sessions fee for a resident student registered for 6 or more semester hours is \$84.50, for a nonresident student, \$215.50.

If you register for less than the full load of 12 semester hours in any one semester or fewer than 6 semester hours in a summer session, you will be charged a lower fee, its amount determined by the number of

semester hours for which you register.

The blanket fees for the regular term and for the summer session cover—in addition to course charges—registration, laboratory, library, diploma, University Health, and Nebraska Union fees. A subscription to the student newspaper, the Daily Nebraskan, also is included in the fee for the regular term, but not the home management residence fee or the deposit for ROTC uniforms. If you register for fewer than 7 hours during the regular term or for fewer than 3 hours during the summer term, you are not entitled to University Health services or membership in the Nebraska Union.

Penalty charges are made in cases of excessive wear, breakage, or loss of University-owned materials and equipment as a result of a student's negligence. Such charges are based on the fair value of the equipment lost or damaged.

Classification of Resident and Nonresident Students.—A student's right to classification as a resident for purposes of registration in a state educational institution must be determined under the provisions of Nebraska

Revised Statutes of 1943, Sec. 85-502 (R. S. Supp., 1965).

Any student who has been classified as a nonresident student who believes he can qualify as a resident may secure from the University Comptroller a residency application form and, when it is properly filled out, file such form with the Comptroller for review and ruling. The form must be filed in the Office of the Comptroller before the end of the ninth week of the term for which the tuition fee was charged. For the summer session, the deadline is the end of the third week.

The exact wording of the state law on residency is given on the appli-

cation form.

Advanced Registration Deposit.—All undergraduate students are required to deposit \$50 with their approved programs of courses to reserve spaces in courses for the fall term. The student who does this before June can be more confident of securing space in the courses he prefers.

All undergraduate students who wish to register for the spring term, and who are not enrolled in the fall term as regular day students, will

^{*} Fees are subject to change.

be required to deposit \$50 with their approved programs of courses be-

fore any class space will be assigned.

These deposits must be made in accordance with instructions contained in the registration materials sent to the students. The deposits will be applied only to the tuition for the next semester following the date of deposit.

Early registrants, including those who have made the class reservation deposit, will lose their class reservations if they do not complete their enrollments by returning the required registration materials by the deadline date printed on them.

Payment of Tuition and Fees.—Students may pay the entire balance of their charges before attending classes or may defer payment of the bal-

ance until ten days after the last day of registration.

A statement of the student's account, showing the balance due, will be mailed to his Lincoln (or commuting) address. Students are held responsible for furnishing correct addresses on forms included with the registration materials. Students are required to pay their bills promptly, preferably by mail. A service charge of \$10 will be assessed on all accounts not paid by the tenth day after the close of registration. Students who have not paid their accounts by the published deadline will be reported to the Dean of Student Affairs for cancellation of their registrations.

Change of Registration Fee.—A student who changes his schedule by adding or dropping a course is charged a change of registration fee of \$2.50.

When a resident student registers for less than 12 semester hours, he is charged \$15.75 for the first hour and \$13.75 for each additional hour until he is registered for a total of 12 semester hours. As an example, if you were a resident student registered for 10 semester hours for the regular term, you would be charged \$139.50 for the 10 hours. Then if you decided to add 2 more hours to your program, you would be charged the \$2.50 change of registration fee plus \$27.50. Here is a table of the charges:

Original registration fee for 10 hours	\$139.50
Add 2 hours (making a total of 12)	. 27.50
Add 1 or more additional hours	. 0.00
Change of registration fee	. 2.50
TOTAL	\$169.50

Change of registration fees for the summer sessions are figured on the same basis as the example given above, except that the maximum number of hours charged for is 6 rather than 12.

Fee Refunds.—If you withdraw from the University on or before the the thirty-fifth calendar day during any regular term, you are entitled to claim a refund of a portion of your fees. Similarly, you would be entitled to a refund if you should withdraw from the six- or eight-week summer session on or before the fourteenth calendar day; or if you should withdraw from the four-week session on or before the seventh calendar day. Any refund due will normally be mailed to the student's forwarding address on the fifteenth day of the next month following the date of withdrawal.

If you *drop a course* and the total number of hours for which you are registered falls below 12 for the regular term or 6 for the summer session, you can claim a refund until the deadline described above. In all

cases, the amount refunded depends on the elapsed time from the beginning of the term to the effective date of the withdrawal or drop.

MISCELLANEOUS FEES

Late registration fee, minimum	3.00
Add'l. for each week after first week of classes	1.00
Transcript—one copy furnished free	0.00
For each additional transcript	1.00
Degree in absentia	10.00
Special examination, each course	1.00
Re-examination, each course	3.00
Advanced standing examination, per credit hour	13.75
Abstract fee (Ph.D. degree)	25.00
Abstract fee (Ed.D. degree)	30.00
Thesis binding (Master's, Ed.D. and Ph.D.)	5.00
Certificate	1.00
Cap and gown rental:*	
Bachelor's cap and gown	3.50
Master's cap and gown	4.00
Master's hood	4.00
Doctoral caps and gowns	4.50
Doctoral hoods	4.50

(Fees are subject to change)

OMAHA CAMPUS

Here are the costs of tuition, room, and board on the Omaha campus:

TUITION	Resident	Nonresident
Summer	\$ 60.00	\$ 75.00
Semester 1		140.00
Semester 2	115.00	140.00
Total	\$290.00	\$355.00

	Two in room	Double room
Room		alone, if available
Summer	\$ 55.00	\$ 70.00
Semester 1	110.00	140.00
Semester 2	110.00	140.00
Total	\$275.00	\$355.00

BOARD

Cash is paid for meals in the college cafeteria. The cost of meals is determined by your choice of items.

An estimate of basic expenditures for a resident student on the Omaha campus, including tuition, room, books, board, and uniforms for one academic year plus one summer session would be approximately \$1,100.

Tuition includes admission, registration, student health, laboratory, library, diploma, and course fees. It does not include the cost of school uniforms, books, or the miscellaneous fees listed below. During your nursing experience you are responsible for the cost of your uniforms and transportation.

^{*} Caps, gowns, and hoods are rented from private concerns, not from the University.

Miscellaneous Fees: (Additional to the blanket fee)—Omaha Campus

Late registration, minimum	\$ 3.00
For each additional week after the first week of classes	1.00
Transcript, each copy (first copy free)	1.00
Degree in absentia	10.00
Special examinations, each course	1.00
Books for three years, approximate	225.00
Subscriptions for professional magazines	12.00
Uniforms, approximate	50.00
School cape (optional)	30.00
School pin, approximate	12.00
State Board examination fee	25.00

Checks on personal accounts will be accepted only when written for the exact amount of the fees. Remittance by mail should be by draft, money order, or cashier's check. Do not send coin or money except by registered mail. It is impossible to trace money lost in the mail, and the University officials cannot be held responsible for such loss.

REQUIREMENTS FOR GRADUATION

The degree of Bachelor of Science in Nursing is granted by the Board of Regents of the University of Nebraska to those candidates who have been recommended for the degree by the faculty of the School of Nursing.

Every candidate for a degree at the University of Nebraska is required to participate in commencement exercises unless he is officially excused by the dean of his college. Inasmuch as the date of commencement is known long in advance, students can usually avoid commitments which conflict with graduation ceremonies. A candidate who is excused from attendance at commencement must pay an *in absentia* fee of \$10.00.

ACCREDITATION

The program in nursing is accredited by the State Board of Nursing and also by the Collegiate Board of Review of the Department of Baccalaureate and Higher Degree Programs of the National League for Nursing.

REGISTERED NURSE STUDENTS

Admission.—The University of Nebraska offers one baccalaureate program in nursing which admits both beginning and registered nurse students. The registered nurse student is governed by the same policies for admission and graduation and follows the same curriculum as the beginning student.

Transfer of Credit.—Transfer credits for required courses are accepted if (a) the credits were earned in an accredited college or university, (b) the student earned a minimum grade of C, and (c) the courses are com-

parable to those required at the University of Nebraska.

Credit may not be transferred for nursing courses taken in diploma or associate degree programs. Credit for courses numbered below 100, including nursing courses, may be allowed on the basis of the results of exemption examinations except for Physiology 51 and 52. No exemption credit is allowed for upper division nursing, that is, courses numbered above 100.

Graduation.—The registered nurse student meets the same requirements for graduation as the beginning student. Of the final 36 semester hours of course work, the last 30 hours must be taken at the University of Nebraska.

- Note: 1. All registered nurse students enrolled in the School of Nursing program prior to 1962 must complete all requirements of that program not later than June 1967 or meet the requirements as
 - 2. All registered nurses admitted to the University of Nebraska during the fall of 1964 and thereafter will be governed by the above policies.
 - 3. A transfer student must complete 30 hours in residence.

STUDENT ACTIVITIES AND SERVICES

FINANCIAL AID

The University of Nebraska has a large program of scholarships and financial aid with which to assist promising students who do not have sufficient funds to attend the University.

Students enrolling or enrolled in the basic collegiate nursing program are eligible for the unrestricted scholarships listed in the General Information Bulletin. The Office of Scholarships and Financial Aids also assists students in finding part-time employment and in obtaining loans.

Students from foreign countries and from states other than Nebraska are not eligible for scholarships, fellowships, or grants during their first year on the University campus.

Freshman Scholarships:-To be eligible to apply for freshman scholarships, students must be in the upper one-third of their graduating classes and must take the Regents Examination given in Nebraska high schools in November. Information, application blanks, and financial forms can be secured from the Office of Scholarships and Financial Aids, 205 Administration Building, Lincoln. Students must submit applications by January 1 for freshman scholarships.

The Army Student Nurse Program and the Navy Nurse Corps Candidate Program are designed for selected students enrolled in baccalaureate programs in professional nursing. Students interested should explore

these resources.

Upperclass Scholarships:—In addition to the scholarships and financial assistance listed in the General Information Bulletin, a limited number of scholarships, awards, and loans are available for students in the basic curriculum. Information, application blanks, and financial forms can be secured from the Student Affairs Adviser. Most of these require the recipient to have successfully completed at least one semester in the School of Nursing. The restricted scholarships and loan funds for students in the basic professional program are listed below.

The University of Nebraska Upperclass Regents Scholarship

Donor: Board of Regents, University of Nebraska

Qualifications: Sophomore, junior, and senior students on basis of scholarship

Value: \$260

Sarah D. Gillespie D.U.V.S.S. Fund

Donor: Sarah D. Gillespie, Tent No. 7, D.U.V.

Qualifications: Nursing student who is direct lineal descendant of a Union veteran

Value: \$100

Ak-Sar-Ben Scholarship

Donor: Knights of Ak-Sar-Ben

Qualifications: Entering sophomore students, preferably Omaha residents, on basis of need

Value: Three at \$200 each (continues for three years)

University of Nebraska School of Nursing Alumnae Association Scholarship Fund

Donor: Alumnae Association, School of Nursing

Qualifications: Sophomore, junior, and senior students on basis of financial need, average scholastic ability, and potential for completing education

Value: Minimum of three tuition scholarships available

LOAN FUNDS:-

Revolving Loan Fund

Donor: Medical Faculty Wives, Zonta International Club, Business and Professional Women's Association

Qualifications: Senior students for senior expenses

Value: Depends on need—\$500 available

Interest: None charged. Repayment to begin 3-6 months after graduation

Kellogg Loan Fund

Donor: Kellogg Foundation

Value: Depends on need-\$3,000 available

Interest: 2% while enrolled as student; 4% upon completion of school; 6% on remainder of loan at final due date

Zonta International Loan Fund

Value: Depends on need, approximately \$450 available

Interest: ½ of 1% per month on the unpaid balance beginning 60 days after graduation

Phi Delta Gamma, Nu Chapter

Value: Depends on need—\$650 plus available

Interest: $\frac{7}{2}$ of 1% per month on the unpaid balance beginning 60 days after graduation

Nurse Training Act of 1964-Nursing Student Loan Program

Qualifications: Sophomore, junior, or senior students in the School of Nursing

Value: Based on financial need—up to \$1000 per year available Interest: Begins one year after graduation, 3% per year on the unpaid balance or the going government rate, whichever is higher

HEALTH SERVICES

The Student and Personnel Health Service, maintained by the College of Medicine, has supervision over the student's health. The Health Service is available for medical treatment of minor illnesses, for medical advice, and for health conferences. Should hospital care be needed, you may be cared for in the University Hospital. If the family desires, another hospital may be chosen.

A student health and accident insurance policy is required. This insurance plan is complementary to the student health program and is designed to provide protection against medical expense for accidents and illness above and beyond the services offered by the University, including those which occur off the campus and during interim vacations.

The University Hospital is not responsible for any pathological condition contracted by the student while serving in the various departments.

All entering students are required to pass a physical examination and are given a yearly examination thereafter and a final examination before leaving the School. A schedule of immunizations is carried out, as well as such tests as are appropriate in careful health supervision.

HOUSING

All unmarried undergraduate women students who do not live with their parents are required to live in the School of Nursing residence. Exceptions deemed necessary may be made through the Student Affairs Committee of the Faculty Organization of the University of Nebraska School of Nursing.

The School of Nursing building is on the College of Medicine campus. It contains the School's educational offices, classrooms, and living accommodations for the students.

Students living within the residence must abide by the rules and regulations established by the Residence Rules Committee of the Student Council.

The attractively furnished student rooms are double, with dressing room. On each floor are a lounge area, a kitchenette, and a laundryette and pressing room. A large lounge, laundry and recreation room are also available.

ACTIVITIES

During the freshman year at the University of Nebraska, students may participate in any of the college activities for which they are eligible. At the School of Nursing, Omaha campus, students are encouraged to continue participation in activities on the Lincoln campus.

Through the School of Nursing Student Council and its various committees, students assume major responsibility in the government of student life. Representatives to serve on the Student Council are elected annually from the student body. The Student Council conducts all student activities and promotes, plans, and organizes participation in various community activities.

Informal teas, coke parties, banquets, picnics, all-school dances, choir, small ensembles, and intramural sports are representative of some of the School of Nursing activities.

ALUMNAE ASSOCIATION

The University of Nebraska School of Nursing Alumnae Association was organized by the graduates of the classes of 1920 and 1921 at the first annual banquet, May 21, 1921. The Association, whose present active membership is 450, provides many services and activities for students in the School.

The Nurse Reporter, official publication of the Alumnae Association, is issued quarterly to all active members. The Association has loan and scholarship funds available to students enrolled in the basic professional program.

DESCRIPTION OF COURSES

Course numbers 1-99 indicate freshman and sophomore level; 100-199, junior and senior level; 200-399, graduate level. Credits are computed on a semester basis.

BASIC COURSES

Biological and Physical Sciences

1-2. Zoology (6 cr)

See College of Arts and Sciences bulletin.

- 1 or 3. Chemistry (3-5 cr)
- 6 or 24. Chemistry (4-5 cr)

See College of Arts and Sciences bulletin.

- 51. Anatomy (3 cr) Dr. Holyoke, Elliott and Staff Lectures and laboratory are designed to give the student a fundamental knowledge of the structure of the human body.
- 51. Biochemistry and Physics Applied to Nursing (5 cr) Jacobi, Wilder and Staff A study of the fundamental principles of inorganic, organic, and biological chemistry, with particular application to nutrition and clinical nursing; includes principles of physics applicable to clinical nursing.
- Physiology (3 cr) Dr. McIntyre and Staff Lectures, demonstrations, and laboratory contribute to the study of the function of the human body.
- 52. Physiology and Pharmacology (3 cr) Dr. McIntyre and Staff A study of drugs with emphasis on the nature, action and therapeutic uses, toxicology, and the therapeutic effects desired.
- 71. Microbiology (4 cr) Dr. McFadden and Staff
 This course deals with the fundamental principles of microbiology with special
 emphasis on the common pathogenic organisms, the sources and modes of infection, and the methods of prevention of the common infectious diseases. Laboratory work includes bacteriological technic, with emphasis on practical problems of asepsis, disinfection, and isolation.

Humanities

1, 2. English Composition (6 cr)

See College of Arts and Sciences bulletin.

21-22. Types of British and American Literature (6 cr) See College of Arts and Sciences bulletin.

Social and Behavioral Sciences

1-2. History (6 cr)

See College of Arts and Sciences bulletin.

- 51. Psychology (3 cr) Affleck (Comparable to Psychology 70 given by Department of Psychology. Credit will be accepted in the College of Arts and Sciences should the student transfer from the School of Nursing.) Fundamental principles of behavior, maturation, learning, motivation, emotion, perception, abilities.
- 53. Sociology (3 cr)

See College of Arts and Sciences bulletin,

- 151. Developmental Psychology (3 cr) Helper (Comparable to Psychology 189 in the Department of Psychology. Credit will be accepted in the College of Arts and Sciences should the student transfer from the School of Nursing.) Development of human behavior during the entire life span of the individual.
- 161. Sociology (3 cr) See College of Arts and Sciences bulletin.

NURSING COURSES

Credit allowance for nursing courses is based on an eighteen-week semester. Each lecture hour earns 1 credit hour. Clinical laboratory hours are computed on a ratio of 1 credit for each 4-hour laboratory period (1:4 ratio).

60. Introduction to Professional Nursing (1 cr) Kyle

Study of major historical and current events as they shape the present and future character of professional nursing and other health team member roles. Lectures, discussion, observations, and reports.

61. Fundamentals of Nursing (7 cr) Kenney and Staff

Lect 5 lab 8 for 18 weeks

This course is designed to help the student further develop a philosophy of nursing by introducing her to a concept of comprehensive nursing. Consideration is given to factors which influence the health of the individual, family, and community, and to the various ways by which health needs are met. Principles which underlie the nurse's role in the promotion and maintenance of health and the prevention of illness are discussed. The principles of nursing which are related to the understanding of the physical, emotional, spiritual, social, and intellectual needs of the patient are emphasized. The significance of behavior as it relates to self understanding and to understanding the individuality of the patient is stressed. Throughout the course, the student is assisted to grow progressively in understanding and application of the principles which pertain to the development of skill in giving comprehensive nursing care.

182 (183). Medical-Surgical Nursing (10 cr) Kenney and Staff

Lect 6 lab 16 for 18 weeks. Prereq Nursing 60 and 61

Nursing 182 is the study of the common and major medical and nursing problems affecting the adult individual. The course of study is organized around the unifying concept of homeostasis in man, emphasizing the analysis and study of common health needs and subsequent nursing problems. The underlying principles of the natural and social sciences as related to health and nursing care are concomitant factors in the approach to the patient and his health and nursing problems, therapeutic regime and treatment, recovery and rehabilitation. The course is designed to assist the nursing student to continue development of understanding, competencies, and values previously acquired and to enable him to acquire new knowledge, skills, and values essential in planning, executing, and evaluating comprehensive nursing care necessary for the patient with medical-surgical problems and related health and nursing needs. Surgical intervention as a form of treatment is included in the course of study. The leading causes of illness and death for the state of Nebraska and the United States as a whole serve as the foundation for study in the current and potential health and nursing problems related to the field of medical-surgical nursing.

183. Medical-Surgical Nursing (5 cr) Kenney and Staff

Lect 6 lab 16 for 9 weeks. Prereq Nursing 182

Nursing 183 is the study of specific nursing problems primarily influenced and determined by current sociological factors and trends in the community and the nation. This includes the nursing needs of individuals involved in accidents, the aging population, and those with chronic and long term illness.

184. Psychiatric Nursing (8 cr) Birch and Staff

Lect 4 lab 16 for 18 weeks

Through a selective approach to psychiatric nursing and psychiatry this portion of the basic curriculum is directed toward the student's realization of the role of the psychiatric nurse and increasing her ability to function in this role. Students have selected patient-centered learning experiences with emotionally ill adults and children and with mentally retarded children. Prevention, rehabilitation, research, and an interdisciplinary approach to the patient and his family are stressed.

185. Maternal Child Nursing (12 cr) Dworak, Frandsen, and Staff

Lect 6 lab 24 for 18 weeks

The study and nursing care of premature and full term infants, children, and mothers. Opportunity is provided for learning and applying principles basic to the maternal cycle and growth and development from conception to adolescence. Deviations from the normal and their effects on the individual and the family, with emphasis on prevention, are included. Knowledge and experience in maternal and child nursing are shared throughout the course, thereby strengthening beliefs and concepts relating to family care.

191 (173). Professional Problems in Nursing (3 cr) Barentson

Responsibilities of the professional nurse are considered, including a study of nursing organizations, legislation affecting nursing, patterns in nursing education, and opportunities in nursing.

192. Group Interaction (2 cr) Garetz

Introduction to group processes with emphasis on use in nursing practice with patient and staff groups.

193. Introduction to Public Health (2 cr) Stuelpnagel

Prereq Senior standing

A course designed to acquaint the student with the method of approach utilized by the major disciplines in public health fields and their role in the identification and solution of community health problems. The major emphasis is on community organization, public health administration, biostatistics, epidemiology, environmental health, public health nutrition, and health education.

194. Family and Community Nursing (8 cr) Stuelpnagel

Lect 4 lab 16 for 18 weeks

A course designed to further the student's understanding of health needs of people in the community. The nursing process associated with the identification and solution of community health problems provides the student with an orientation to the role of the public health nurse as a positive force in helping people meet their health needs. Prevention, rehabilitation, and the multi-discipline approach to community health are stressed. Laboratory experience is provided at the Visiting Nurse Association, the Division of Public Health Nursing, Omaha-Douglas County Health Department, Omaha, Nebraska.

195. Advanced Clinical Nursing (5 cr) Fleming

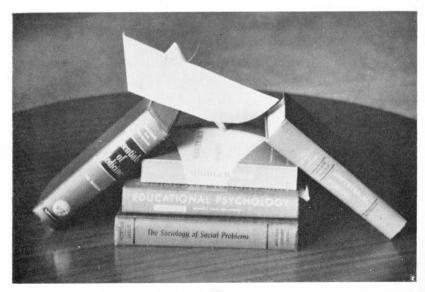

Lect 3 lab 8 for 18 weeks

Analysis and discussion are centered on health problems common to all age groups. The variables that complicate nursing care are explored to determine nursing action in the patient situation. Selected learning experiences are the complex nursing problems on the various patient care units. Taken concurrently with Principles of Administration and Leadership.

196. Principles of Administration and Leadership (5 cr) Johnson

Lect 3 lab 8 for 18 weeks

An introduction to the functions and responsibilities of the leader of the nursing team, Emphasis in the course is placed on principles and technics of leadership and administration in nursing situations, on human relationships, and on health teaching. Nine weeks of guided experience as a team leader. Taken concurrently with Nursing 195.

The Florence Nightingale Pledge

I solemnly pledge myself before God and in the presence of this assembly to pass my life in purity and to practice my profession faithfully. I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug. I will do all in my power to maintain and elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my calling. With loyalty will I endeavor to aid the physician in his work, and devote myself to the welfare of those committed to my care.
