This Painting is brought to you for free and open access by DigitalCommons@UNMC. It has been accepted for inclusion in The Art of Medicine by an authorized editor of DigitalCommons@UNMC. For more information, please contact digitalcommons@unmc.edu.

The Scream

Lina Adwer

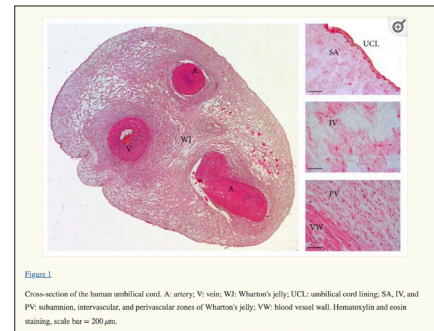

Figure 1
Cross-section of the human umbilical cord. A: artery, V: vein; WJ: Wharton's jelly; UCL: umbilical cord lining; SA, IV, and VW: subintima, intravascular, and perivascular zones of Wharton's jelly; VW: blood vessel wall. Hematoxylin and eosin staining, scale bar = 200µm.

Arutyunyan I, Elchaninov A, Makarov A, Fatkhudinov T. **Umbilical Cord as Prospective Source for Mesenchymal Stem Cell-Based Therapy.** Stem Cells Int. 2016;2016:6901286. doi: 10.1155/2016/6901286. Epub 2016 Aug 29. PMID: 27651799; PMCID: PMC5019943. <https://www.hindawi.com/journals/sci/2016/6901286/#introduction>

Lina Adwer was raised between Iraq, the United Arab Emirates, and Houston, Texas. She attended the University of Houston and graduated with a Bachelor of Science in Biotechnology focusing on Bioinformatics. After graduation, she worked at the University of Texas MD Anderson Cancer Center as a researcher in Phase I and II clinical trials. She currently attends the University of Nebraska Medical Center and is pursuing her MD. Lina has been interested in all forms of art since childhood. She hopes to incorporate her love of art into her future medical practice.
