Kind regards,

Karen Ballen
Manager, Reprints, Permissions, and Liebert Open Option
Tel: (914)740-2194

My name is Yi Wang. I am the first author of "Glutaminase 1 is Essential for the Differentiation, Proliferation, and Survival of Human Neural Progenitor Cells, Stem Cells and Development. November 15, 2014: 2782-2790." I would need to use the published material in this paper for my PhD-degree dissertation thesis, thus I would like to request a permission for using the materials. Could you please help me with the permission?

Please let me know if you would need anything else or have any questions. Thank you very much for your help!

Best regards,

Yi
