Bulletin of
THE UNIVERSITY OF NEBRASKA
College of Dentistry
ANNOUNCEMENTS
1966 - 1967
FEBRUARY 10, 1966
The faculty of the College of Dentistry, University of Nebraska, recognizing its responsibilities to its students, the profession, and the public, sets forth the following as the objectives of the College:

1. To make every effort to select students for the study of dentistry who have the personal and moral qualifications and the scholastic ability for a professional career in dentistry.

2. To provide, within a flexible curriculum, a solid foundation of fundamental scientific knowledge and the basic technical skills necessary to the utilizing of this knowledge.

3. To motivate students to recognize and fulfill their social and moral responsibilities to their patients, their civic responsibility to the community, and their ethical obligation to the profession of dentistry.

4. To inspire students to recognize the need for continuing education and for personal and professional evaluation throughout their professional careers.
CALENDAR

Academic Year 1966 - 1967

First Semester

August 12—Fri.

Sept. 6, 7—Tues., Wed.

Sept. 7, 8, 9—8:30-11:30 a.m., 1:00-4:00 p.m.

Sept. 12—Mon.

Sept. 12—Mon.

Sept. 16—Fri.

Sept. 19—Mon.

Oct. 7—Fri.

Oct. 29—Sat. noon

Nov. 23-27—Wed. 7:30 a.m. through Sun.

Dec. 17-Jan. 1—Sat. 12:30 p.m. through Sun.

Jan. 12—Thurs.

Jan. 28—Sat.

Last day for undergraduate applications

Late student preregistration tests and medical reviews

General Registration

Late fees for undergraduate students begin

First semester classes begin

Late fees for graduate students begin

Final day on which registrations will be accepted

Last day to file drops in Registrar's Office

Seven weeks scholastic reports due

Thanksgiving vacation

Christmas vacation

Last day of first semester classes

First semester examinations

First semester commencement

Second Semester

Jan. 25, 26—Wed. and Thurs.

Jan. 26—Thurs.

Jan. 27—Fri.

Jan. 30—Mon.

Feb. 3—Fri.

Feb. 6—Mon.

Feb. 15—Wed.

Feb. 24—Fri.

March 18—Sat. noon

March 25—April 2—Sat. 12:30 p.m. through Sun.

May 2—Tues.

May 5—Fri. noon

May 6—Sat.

May 18—Thurs.

May 20—June 1—Sat. through Thurs.

May 30—Tues.

June 3—Sat.

Preregistration tests

Medical reviews

Registration

Second semester classes begin

B. N. Greenberg, M.D., York ........................................................................... January 1971
Joseph Sosniki, Lincoln, Corporation Secretary

The University

Clifford Morris Hardin, Ph.D., Chancellor of the University.
Adam Carlyle Breckenridge, Ph.D., Vice Chancellor and Dean of Faculties,
Merk Hobson, Ph.D., Vice Chancellor for Research, Dean of the Graduate
College.

G. Robert Ross, Ph.D., Vice Chancellor for Student Affairs, Dean of Student
Affairs.
Joseph Sosniki, Ph.D., Vice Chancellor for Business and Finance.

Ralph Leonard Ireland, D.D.S., M.S., Dean of the College of Dentistry.
John E. Aronson, M.A., Director of Admissions.

Lee W. Chafield, M.A., Associate Dean of Student Affairs; Director,
Junior Division.

Carl A. Donaldson, M.S., Business Manager of the University.

Lewis F. Fowles, Ed.D., Associate Dean of Student Affairs (Men).

Floyd Hoover, Ph.D., Registrar.

George S. Round, B.S., Director of Public Relations.

Helen Snyder, M.A., Associate Dean of Student Affairs (Women).

Robert W. Williams, M.S.E., Comptroller of the University.

The Faculty

Selma E. Anderson, A.B., M.T., (ASCP), M.S., Assistant Professor of Oral Pathology.

Mildred G. Atkinson, R.N., Instructor in Operating Room Technique.

Richard E. Bradley, B.S.D., D.D.S., M.S.D., Professor of Periodontics (Chairman of Department).

Robert A. Brooks, B.S., M.D., Instructor in Oral Pathology.

Alan D. Brown, Laboratory Technician in Orthodontics.

Karl W. Bruce, B.S.D., D.D.S., M.S.D., Instructor in Oral Pathology.

Norman H. Cromwell, B.S., Ph.D., Professor of Chemistry (Chairman of Department).

Douglas O. deShazer, D.D.S., M.S., Assistant Professor of Research.

Donald W. Edwards, D.D.S., Instructor in Dental Literature and History.

Warren E. Engelhard, B.S., M.S., Ph.D., Associate Professor of Microbiology.

Edward I. Fry, B.A., M.A., Ph.D., Associate Professor of Anthropology; Special Lecturer in Graduate Pedodontics and Orthodontics.

Burdette L. Gainsforth, D.D.S., M.S.D., Associate Professor of Orthodontics.

Carl E. Georgi, B.S., M.S., Ph.D., Professor of Microbiology (Chairman of Department).

Mary C. Gibb, B.S., R.N., M.T., (ASCP), Instructor in Periodontics.

Robert D. Gibson, B.S., M.S., Ph.D., Dean of the College of Pharmacy, Professor of Pharmacology.

Donald C. Haack, B.S., M.S., Professor of Engineering Mechanics, College of Engineering; Special Lecturer in Graduate Orthodontics.
Keay Hachiya, A.B., M.D., Instructor in Pedodontics.
John D. Hayes, Laboratory Technician in Prosthodontics.
Kenneth E. Holland, B.S., D.D.S., Assistant Professor of Orthodontics.
Bert L. Hooper, D.D.S., Dean Emeritus of the College of Dentistry.
Ralph L. Ireland, D.D.S., B.S., M.S., Dean of the College of Dentistry and Professor of Pedodontics.
Garth A. James, B.S., M.S., D.D.S., Associate Professor of Endodontics.
Robert B. Johnston, B.A., Ph.D., Associate Professor of Chemistry.
Donald A. Keys, B.A., D.D.S., Professor of Operative Dentistry (Chairman of Department).
Ray M. Knapp, D.D.S., Professor of Oral Diagnosis and Treatment Planning (Chairman of Department). Director of Clinical Coordination.
Jack M. Knodle, B.S., D.D.S., Associate Professor of Prosthodontics.
William S. Kramer, B.S.D., D.D.S., M.S.D., Professor of Pedodontics (Chairman of Department).
Harold B. Miller, Ph.C., B.S., M.D., Instructor in Oral Pathology.
Samuel D. Miller, M.B., M.D., Associate Professor of Anesthesiology.
Thomas M. Moriarty, B.S.D., D.D.S., M.S.D., Instructor in Orthodontics.
Roland F. Mueller, M.D., Director of Dental Clerkship.
Francis D. Murphy, B.S.D., D.D.S., M.S.D., Assistant Professor of Orthodontics.
Harlan L. Papenfuss, A.B., M.D., Instructor in Oral Pathology.
Cecil F. Parker, A.B., LL.B., Instructor in Dental Jurisprudence.
Vernon W. Rinne, B.S.D., D.D.S., Associate Professor of Operative Dentistry.
William I. Rotton, D.D.S., Director of Dental Clerkship.
Jessup M. Shively, B.S., M.S., Ph.D., Assistant Professor of Microbiology.
Edward W. Simpson, B.S., M.P.H., Lecturer in Public Health Dentistry.
George Skworcow, M.D., Instructor in Periodontics.
Samuel S. Sonner, B.A., M.S., Instructor in Dental Hygiene.
Ray H. Steinacher, B.S., D.D.S., M.S.D., Professor of Prosthodontics (Chairman of Department).
Robert M. Steim, B.S.D., D.D.S., M.S.D., Associate Professor of Fixed Denture Prosthesis.
Frank A. Stewart, B.S., M.D., Assistant Professor of Pedodontics.
Lee Stover, A.B., M.S., M.D., Assistant Professor of Internal Medicine.
Frank H. Tanner, B.S., M.D., Associate Professor of Oral Pathology.
Thomas L. Thompson, A.B., M.S., Ph.D., Associate Professor of Microbiology.
George A. Vidaver, B.S., Ph.D., Associate Professor of Chemistry.
Donald T. Waggner, D.D.S., Professor of Oral Pathology (Chairman of Department). Coordinator of Cancer Instruction.
Elizabeth M. Warner, R.D.H., B.A., M.P.H., Associate Professor of Dental Hygiene (Chairman of Department)
W. Wallace Webster, B.S., D.D.S., Professor of Oral Surgery (Chairman of Department); Director, Dental Intern Program.
Sam Weinstein, D.D.S., M.S.D., Professor of Orthodontics (Chairman of Department).
Patrick R. Wells, B.S., M.S., Ph.D., Assistant Professor of Pharmacology.
Elvin G. Wilkinson, B.S.D., D.D.S., M.S.D., Assistant Professor of Pedodontics.
Robert M. Wotton, A.B., M.A., Ph.D., Associate Professor of Zoology.
Hoyt Yowell, B.S., M.S., Ph.D., Assistant Professor of Anatomy.
FACULTY

Guest Lecturers

Standing Committees

Executive Committee—Dr. Ireland, Chairman; Dr. Kramer, Secretary
   Drs. Bradley, Steinacher, Keys, Knapp, Lynn, Weinstein, Webster, Waggener, Miss Warner

Admissions—Dr. Rinne, Chairman; Dr. Lynn, Secretary
   Drs. Steinacher, James

Student Advisory—Dr. Kleitsch, Chairman; Dr. Sullivan, Secretary
   Drs. V. A. Fry, Stemm

Curriculum—Dr. Ireland, Chairman; Dr. Keys, Secretary
   Drs. Knapp, Kramer

Library—Dr. McCabe, Chairman
   Dr. V. A. Fry, Miss Anderson

Teaching—Dr. McCabe, Chairman; Drs. James, Knapp

Student Loans & Scholarships—Dr. Stemm, Chairman; Mrs. Gibb, Secretary
   Dr. Rinne

Public Relations—Dr. Ahrens, Chairman; Drs. Knodle, Merchant

Graduate Programs—Dr. Ireland, Chairman; Drs. Weinstein, Bradley, Kramer, Webster

Hospital Affiliations—Dr. Webster, Chairman;
   Bryan Memorial Hospital—Dr. Webster
   Lincoln General Hospital—Dr. Rotton
   St. Elizabeth Hospital—Drs. Waggener, Mueller

Continuing Education Courses—Dr. Waggener, Chairman; Drs. Keys, Sullivan

Dental Hygiene Adviser—Miss Warner

Predental Advisers—Dr. Steinacher, Chairman; Dr. Knodle

Achievement Tests—Dr. Keys, Chairman; Dr. Bonness
THE COLLEGE OF DENTISTRY

The College of Dentistry is fully approved by the Council on Dental Education of the American Dental Association and is a member of the American Association of Dental Schools.

Admission to the College of Dentistry is on a selective basis. Selection is based on the quality of the applicant's work in liberal arts college, his character, his personality, and his aptitude for and interest in the study of dentistry.

Removal of Deficiencies

A student who has not studied algebra or plane geometry in high school must make up the deficiency by taking these subjects through the University Extension Division. Credits so earned may not be applied toward graduation; they can be used only to meet entrance requirements.

A student who is not a high school graduate or who is a graduate of a nonaccredited high school may not apply toward graduation any college hours earned to make up entrance requirements.

College

Applicants must successfully complete a minimum of 64 hours in a recognized liberal arts college. A maximum of 4 hours in physical education or military science may be used toward this requirement. These 64 hours should be completed by the end of the academic year prior to the desired fall term enrollment.

Required subjects are:

- 2 semesters in English composition
- 2 semesters in zoology or biology (zoology preferred)
- 2 semesters in general elementary chemistry
- 2 semesters in physics
- 2 semesters in organic chemistry

Some elective subjects are:

- Anthropology
- Art
- Business Law
- Business Organization
- Economics
- English
- Foreign Language
- History
- Mathematics
- Philosophy
- Political Science
- Psychology
- Scientific Greek
- Sociology
- Speech
- Zoology

Although hourly requirements are not stated, generally the student will complete 6 hours in English composition, 6 hours in zoology or biology, 8 to 10 hours in physics, 6 to 10 hours in inorganic chemistry, and 4 to 8 hours in organic chemistry. All science courses must include both class and laboratory work.
GROUP REQUIREMENTS

Semester hours in any subject which is part of the College of Dentistry curriculum cannot be used in satisfying the admission requirements.

TRANSFER CREDIT

Transfer students must have an average grade of at least C, where the lowest passing grade is D, in order to be eligible for admission. Before any student can be considered for admission, he must file in the Office of Admissions an official transcript of work already completed which shows also that he is in good standing. College credit earned at an accredited college can usually be transferred to the University of Nebraska College of Arts and Sciences, except that courses in which grades of D have been earned may not be transferred. As a general policy, the maximum number of credits a student may transfer from an approved junior college is 66, and the maximum for one semester is 17, for one summer session 8.

Transfer credit does not, however, count toward the grade average.

APTITUDE TESTS

All students making application to the College of Dentistry are required to take the aptitude tests provided by the Council on Dental Education of the American Dental Association. Further information may be requested from the College of Dentistry.

GENERAL INFORMATION

Course Leading to the Degree of Bachelor of Arts or Bachelor of Science and Doctor of Dental Surgery.—By completing the group requirements of the College of Arts and Sciences and one minor under Plan A (or two minors under Plan B) and by using the subjects of the first year of the dental course as a major, the student is enabled to receive the degree of Bachelor of Arts or Bachelor of Science in the College of Arts and Sciences at the end of four years.

Group Requirements

The purpose of the group requirements is to provide a good introduction to the various types of knowledge upon which our civilization is founded.
The requirements are divided into six major classifications, known as Groups A, B, C, D, E, and F.

A. English Composition ............................................ 6 hours
   1, 2; or 3, 4

B. Humanities—Fine Arts, Literature, Philosophy .................. 12 hours

   At least 6 hours must be presented in literature from courses so designated in the Departments of Classics, English, Germanic Languages, and Romance Languages. Of these 6 hours a minimum of 3 must be taken in American or English literature. A maximum of 6 hours may be presented from Art (29, 31), Music (177, 178), Philosophy (courses other than logic), Speech (12, 135, 136).

   The following courses may not be used to fulfill the Group B requirement: in Art, Music, Speech, all courses not listed above; in English, all courses not now listed under Literature or Comparative Literature; in language departments all courses numbered under 100; Latin 116, 121, 219, 220, 223, 244; Greek, all courses below 200; German 107, 108, 109, 110; Scandinavian 231; French 113, 114, 119, 219, 220; Spanish 153, 154, 155, 223, 224.

   No courses may be used to fulfill both the Group B and the Group C requirements.

C. Languages, Classical and Modern .................................. 3-16 hours

   This requirement will be fulfilled when a student has completed the fourth-semester college course in whichever language he studies (for example, French 14, German 4, Spanish 54, and Latin 6). If he has met the entrance requirement for 2 units of one foreign language in high school, he will fulfill the group requirement with 6 hours in the same language, provided that his placement examination indicates that he is ready for the third-semester college course. If his placement scores are such that he must take an earlier course, he must do so with reduced credit toward graduation.

   Every candidate for a degree must present a minimum of 3 college semester hours in a foreign language, regardless of the number of units completed in high school.

   A transfer student with 11 or 12 semester hours of accepted credit has two choices: (1) to enroll in the third-semester course in the same language and then continue with the fourth-semester course or (2) with the permission of the chairman of the department to enroll in the fourth-semester course.

   The following courses may not be used to meet the language group requirement: Classics 31, 73, 74, 75, 115, 116, 281, 282, 283; Germanic Language 11, 12, 31, 32; Romance Languages 1, 2, 5, 6, 21, 22, 61, 62; Russian 1, 2.

   A student from a foreign country who has demonstrated acceptable proficiency in his native language is exempted from the language group requirement without credit toward his degree.

D. Logic or Mathematics .................................................... 3 hours

   For courses in Logic see “Philosophy.”

   One unit of algebra and one of geometry are included in the entrance requirements. A student who presents a third unit in mathematics composed of courses in one or two of the following—algebra, geometry,
GROUP REQUIREMENTS

trigonometry—is exempted from the Group D requirement, provided that he qualifies for registration in Mathematics 14.

E. Natural Sciences ......................................................... 6-12 hours

Biology, botany, chemistry, geology, microbiology, physics, zoology and physiology.

This requirement may be met (a) by 10 hours in one science, or (b) by 6 hours in each of two sciences.

If biology is selected, the requirement may be met by taking 4 hours of approved courses in botany, microbiology, or zoology, in addition to 8 hours of biology.

The requirement may be met by the completion of Chemistry 6 or 24. Geology 1 and 2 may be used with any 4 hours of the following to meet the 10 hour option: Geology 15, 96, 97, 105, 106, 109.

F. Social Sciences .......................................................... 12 hours

A 6-hour sequence must be presented from one department from each of two of the following divisions:

1. History
2. Anthropology, psychology, sociology
3. Economics, geography, political science

Psychology 181 may not be used. From economics only courses listed under Economic Theory or Economic History apply; Economics 11 and 12 are normally used. From geography only 11, 12, 164, 167, 168, 169, 170 may be used; preferably 11 or 12 should be the first course. In psychology, sociology, and political science, the beginning course and any other course not excluded above constitutes a sequence. In anthropology, 11 and 12 are the sequence. In history, 1 and 2, 91 and 92, are typical sequences.

Majors and Minors.—The subjects of the first year of the dental course may be used as a major. In addition, the student is required to complete one or two minors.

The Minor—Plan A.—If only one minor is completed, the requirements are the following:

Anthropology, 18 hours.
Art, 18 hours, including Art 1 (3 hours), 2 (3 hours), 11, 12, 3 (2 hours) or 5 (2 hours), 29, and 31.
Botany, 18 hours beyond Botany 1 and 2, or 3 or Biology 2, including Botany 104, 114, 119; Zoology and Physiology 141 or Agronomy 165; and 3 hours of botany at the 200 level.
Chemistry, 8 hours beyond Chemistry 22, 24, or 119.
Economics, 18 hours.
Geography, 18 hours, including 9 hours of literature from courses listed under the major requirements.
Geology, 22 hours.
German, 12 hours at the 100 or 200 level, including at least 2 hours at the 200 level.
Greek, 12 hours at the 100 or 200 level, excluding Greek 115, 117, 261, 283.
History, 18 hours, including a 6-hour sequence in United States history, a 6-hour sequence in other than United States history, and two 3-hour courses at the 200 level.
Journalism, no minor.
Latin, 12 hours at the 100 or 200 level, excluding Classics 116, 282, 283.
Mathematics, 116 or 132, and two courses (6 hours) numbered above 120, exclusive of Mathematics 145.
Microbiology, 12 hours beyond Microbiology 111.
Music, 18 hours—5 hours of consecutive courses in minor applied music classes, 2 hours of related ensemble courses, Music 71, 72, 73, 79, and 178.
Philosophy, 18 hours.
Physics, 12 hours beyond Physics 2 or 104, including three courses at the 200 level.
Political Science, 18 hours, including Political Science 10; 153, 260, or 262; and 251, 252, 263, or 264.
Psychology, 18 hours, including Psychology 190; 251, 261, 262, or 293; and 280, 287, or 288.
Romance Languages, 12 hours in one language at the 100 or 200 level, including 3 hours at the 200 level.
Sociology, 18 hours, including Sociology 53.
Speech, 18 hours, exclusive of Speech 9, 11, and 111, and including Speech 14, 105, and 109.
Zoology and Physiology, 21 hours (biology may be included)

The Minor—Plan B.—If two minors are completed, the requirements in each are the following: Army, Navy, or Air Force ROTC, 16 hours; Anthropology, 12 hours; Art, 12 hours; Botany, 10 hours beyond Botany 2 or 3 or Biology 2; Chemistry, 4 hours beyond Chemistry 22, 24, or 119; Economics, 12 hours; English, 18 hours; Entomology, 6 hours numbered above 200; Geography, 12 hours; Geology, 16 hours; German, 6 hours numbered above 100; Greek, 16 hours, excluding Greek 73, 115, 117, 281, 283; History, 12 hours; Journalism, no minor; Latin, 6 hours numbered above 100, excluding Classics 116, 282, 283; Mathematics, Mathematics 115; Microbiology, 6 hours beyond Microbiology 111; Music, 12 hours (3 hours of consecutive courses in minor applied music classes, 2 hours of related ensemble courses, and 71, 72, and 178); Philosophy, 12 hours; Physics, 6 hours beyond Physics 2 or 104; Political Science, 12 hours; Psychology, 12 hours; Romance Languages, 6 hours, in one language, numbered above 100; Russian, 6 hours numbered above 100; Sociology, 12 hours; Speech, 12 hours; Zoology and Physiology, 10 hours beyond Zoology and Physiology 2 or 6 or Biology 2.

In support of certain majors, minors outside the College of Arts and Sciences are permitted under Plan B: Agricultural Economics, 12 hours; Architecture, 12 hours; Business Organization, 12 hours; Civil Engineering, 16 hours; Dance (consult adviser); Home Economics (Textiles, Clothing, and Design), 12 hours; Pharmacology, 12 hours; Physical Education for Women, 12 hours exclusive of practice courses.

ADMISSION TO THE COLLEGE OF DENTISTRY

Formal application must be made on regular blanks which may be obtained by writing to the Admissions Committee of the College of Dentistry, Andrews Hall. Final date for submitting applications is March 15 prior to the academic year in which you intend to enroll.
An applicant should submit an official transcript of courses and grades from each college or university in which he has completed predental requirements.
A record of the aptitude test score must be submitted. The Admissions Committee usually selects the freshman class before the April testing date. It is recommended, therefore, that the dental aptitude tests be taken in October, or in January of the year the applicant wishes to apply.
A personal interview is urged but not necessarily required.
A student may make application when he has completed two semesters of predental work (30 semester hours). His application must be accompanied by a statement showing courses for which he is currently registered or which he will complete prior to the beginning date of the class he desires to enter. However, he must complete the specific minimum requirements (including two semesters in English composition, two se-
mesters in zoology or biology, two semesters in inorganic chemistry, two semesters in physics, and one semester in organic chemistry) by June of the year in which he desires to enter the College of Dentistry.

All aliens, regardless of residence, but excluding persons who have commenced their naturalization process, are charged an application fee of $5.00. This fee is nonrefundable; however, if the applicant enrolls, this fee will apply towards payment of tuition and fees. This fee should accompany the application for admission.

When a student receives notice that he has been accepted for admission to the College of Dentistry, he is required to make a deposit of $100, which will be applied to his first semester registration fee. It will be forfeited if he fails to register for that session.

After a student is admitted, his credentials are filed in the Registrar's Office and become the permanent property of the University.

Ex-servicemen are urged to get in touch with the Office of Veterans Affairs, Administration Building 504, if they plan to attend the College of Dentistry under the provisions of one of the G.I. Bills.

FEES AND EXPENSES*

Each resident student who enrolls in the College of Dentistry pays a fee of $505 per semester, which covers the major school expenses for that period. Each nonresident student is charged $780 a semester.

Students may pay the entire balance of their charges before attending classes or may defer payment of the balance until ten days after the last day of registration.

A statement of the student's account, showing the balance due, will be mailed to his Lincoln (or commuting) address. Students are held responsible for furnishing correct addresses on forms included with the registration materials. Students are required to pay their bills promptly, preferably by mail. A service charge of $10 will be assessed on all accounts not paid by the tenth day after the close of registration. Students who have not paid their accounts by the published deadline will be reported to the Dean of Student Affairs for cancellation of their registrations.

Each student who enrolls in the clinic during the summer session will be charged an administrative fee of $15. This fee is included in the regular undergraduate tuition paid when students enroll for three or more hours of courses during the summer session.

TEXTBOOKS, INSTRUMENTS, AND MATERIALS

All required textbooks, dental instruments and materials are loaned for the student's use during his four-year dental college training. As these items become needed for the various courses, they are issued to the student.

If any issued item is lost or damaged beyond usefulness, the student must make replacement at his own expense. If for any reason additional supplies become necessary, the student must pay for the needed item or items.

Upon completion of the dental course and the conferring of the D.D.S. degree, all textbooks and instruments then become the property of the student.

Pens, pencils, notebooks and paper are not furnished by the College.

* Fees are subject to change.
(Examination “blue-books” will be furnished by the College.) Each student must provide himself with a minimum of four dental operating gowns of a type specified by the College and such laboratory gowns as may be required in the laboratory courses; he must maintain them in clean, presentable condition at his own expense.

MISCELLANOUS FEES

The following incidental expenses are not included in the above semester fees:

- Late registration, minimum: $3.00
- Additional for each week after the first week of classes: 1.00
- Transcript—one copy furnished free
- Each additional copy: 1.00
- Degree in absentia: 10.00
- Special examination, each course: 1.00
- Re-examination, each course: 3.00
- Advanced standing examination, per credit hour: 6.00
- Audit fee, per credit hour: 3.00
- Abstract fee (Ph.D. degree): 25.00
- Thesis binding (Master’s and Ph.D.): 5.00
- Special examination, each course: 1.00
- Certificate: 1.00
- Cap and gown rental:
  - Bachelor’s cap and gown: 3.50
  - Master’s cap and gown: 4.00
  - Master’s hood: 4.00
  - Ph.D. cap and gown: 4.50
  - Ph.D. hood: 4.50
  - J.D. cap and gown: 4.50
  - J.D. hood: 4.50
  - D.D.S. cap and gown: 4.50
  - D.D.S. hood: 4.50

(Fees are subject to change)

Graduate Courses in Pedodontics, Periodontics and Orthodontics for Advanced degrees. (For description, fees, etc., see the Bulletin of the Graduate College.)

CLASSIFICATION OF RESIDENT AND NONRESIDENT STUDENTS

A student’s right to classification as a resident for purposes of registration in a state educational institution must be determined under the provisions of Nebraska Revised Statutes of 1943, Sec. 85-502 (1963 Cumulative Supplement).

Any student who has been classified as a nonresident student who believes he can qualify as a resident may secure from the University Comptroller a residency application form and, when it has been properly filled out, file such form with the Comptroller for review and ruling. The form must be filed in the Office of the Comptroller before the end of the ninth week of the term for which the tuition fee was charged. For the summer session, the deadline is the end of the third week.

The exact wording of the state law on residency is given on the application form.

FEE REFUNDS

A student who withdraws from the University during any term for which he is registered is entitled to claim a refund of a portion of his fees, as set by the Comptroller of the University, unless he withdraws after
the thirty-fifth calendar day of the regular term. The amount refunded depends upon the elapsed time from the beginning of the term to the effective date of the withdrawal or drop.

As explained previously, the textbooks, dental instruments and materials issued for student use are merely loaned during the dental training period. Should a student withdraw from school prior to graduation with a D.D.S. degree, all books, instruments, and unused supplies must be returned to the dental store before any refunds will be made.

For the summer session there will be no refund.

A student having completed any course (or courses) of the dental curriculum elsewhere than at the scheduled time in the dental course will receive no deduction from the stated semester fee, even though the course (or courses) may be accepted for credit toward his D.D.S. degree.

**SCHOLASTIC REGULATIONS**

Class Attendance.—No student may be admitted later than ten days after the opening of the fall session. It is very much to the advantage of each student to register and be in attendance at his classes at the very outset of each semester of work. No credit is granted to any student for matriculation or attendance where such attendance is less than one semester in duration. Moreover, each student must remain in continuous attendance during each semester for which credit is sought. If for any reason a student’s program is discontinued and he subsequently returns to the University, he must satisfy all requirements for graduation as they may exist at the time of his re-entrance upon his studies.

Attendance Requirements.—Attendance at less than 80 per cent of the scheduled lectures and recitations, or 85 per cent of the scheduled laboratory and clinical hours, constitutes a failure in any course, and will be so reported. Temporary leave of absence may be obtained from the Dean of the College, the Associate Dean of Student Affairs, or the Dean of the Division of Student Affairs. However, such leave does not excuse a student from meeting all course requirements.

Class Standing and Examinations.—The standing of a student in any course is determined by the instructors in charge of the subject, by examinations, by personal observations, and by other methods of evaluation. The grades given are A, B, C, D and F, as follows:

- A = 4 grade points
- B = 3 grade points
- C = 2 grade points
- D = 1 grade point
- F = 0 grade point
- I = Incomplete
- W = Dropped in good standing
- P = Passed but not graded
- RN = No Report

For the freshman and sophomore years, a grade point average of 2 must be maintained. For the junior and senior year, a grade point average of 2.5 must be maintained. A student who fails to maintain the prescribed grade point average will be put on probation for one semester. If, by the end of that semester, the student fails to raise his over-all average to the required grade point average, he will not be permitted to continue in the College.
Any course which, for good reason, has not been completed, but in which progress has been satisfactory, may be reported as “incomplete.” A student may not register for the sophomore, junior, or senior year with an existing “incomplete” still on his record. A student must remove a grade of “incomplete” from his record during the following summer session if the grade was received in the second (spring) semester. If a grade of “incomplete” was received in the first (fall) semester, it must be removed by the end of the first eight weeks of the following second (spring) semester. If a student fails to remove the grade of “incomplete” from his record in the allotted time, he will receive the grade of “F” automatically.

Credit will not be allowed in any of the following courses unless a passing grade is made in both lecture and laboratory portions of the course: Fixed Denture Prosthesis 31, 32, 73, 74; Operative Dentistry 12, 51; Prosthodontics 34, 71.

Final examinations are held at the end of each semester. Other examinations may be held at the option of the instructor. Individual examinations are allowed only after the regular examinations have been completed and then only with the permission of the instructor.

Senior students who have not completed all requirements for graduation two weeks prior to the annual spring graduation date, or who have not demonstrated to the department or departments concerned that any deficiencies can be completed before the last day of classes as scheduled by the University, will not be recommended by the faculty for graduation.

Failure.—A grade of “F” is failure.

If a student receives a failing grade in only one course, he may repeat the course in the summer session provided his other course grades are satisfactory and the department concerned gives approval.

Any student who fails more than one course in any academic semester will not be permitted to continue in the College of Dentistry. He may petition for permission to repeat the entire year.

A student who has failed twice here or elsewhere in the same subject is not eligible for registration in this College.

The faculty reserves the right to dismiss a student from the College of Dentistry at the end of any semester providing he does not, in their judgment, show sufficient promise to justify allowing him to continue the study of dentistry, regardless of his grades.

A failed subject must be absolved by re-registration in and satisfactory completion of the subject.

HONORS PROGRAM

The faculty of the College of Dentistry has approved an Honors Program whereby students who have compiled a high scholastic average for their first three years and, in addition, have completed all clinical requirements of the junior year, may, upon approval of the Committee on Teaching, be permitted to pursue a special course of study or phase of clinical practice in more depth in collaboration with a faculty adviser.

HONORS

The Honors Convocation is held annually for the purpose of giving recognition to students who excel in scholarship. The printed program of the ceremonies gives the names of the seniors who rank in the upper three per cent of their class, the names of students who have been on the honors lists since matriculation as freshmen, and the names of the stu-
DEGREES

DENTS who rank in the upper ten per cent of each of the four classes of each college of the University.

Alpha Alpha chapter of Omicron Kappa Upsilon, the dental honorary fraternity, was chartered at the University of Nebraska College of Dentistry in May, 1929. Election to this honor society is based upon scholarship, conduct, and data gathered by the faculty and recorded on a character analysis chart.

DEGREES

APPLICATION FOR DEGREE

A student expecting to receive a certificate or a diploma must make proper application for such certificate or for admission to candidacy for a degree. The application must be made at the Office of the Registrar, Administration Building 208. No student is recommended for a degree who has not been reported at the beginning of his last semester of attendance as being within 18 hours of meeting the requirements for the degree for which application is made.

DEGREES

1. Doctor of Dental Surgery

The candidate for this degree must have completed the prescribed curriculum, passed the necessary examinations, and received the required credits therein. He must also have met all the general scholastic requirements of the University.

2. and 3. Combined Degrees of Bachelor of Arts or Bachelor of Science and Doctor of Dental Surgery

By completing the group requirements of the College of Arts and Sciences and two minors (or one major) and by using the subjects of the first year of the dental course as a major, the student is enabled to receive at the end of four years the degree of Bachelor of Arts or Bachelor of Science in the College of Arts and Sciences as well as the degree of Doctor of Dental Surgery. For group requirements consult the Bulletin of the College of Arts and Sciences.

4. Degree with Distinction

The degree of Doctor of Dental Surgery cum laude may be conferred upon a student upon the basis of over-all scholastic excellence for his four years in the College of Dentistry and, in addition, the completion of an original research project or admission to the Honors Program during his senior year.

5. Master of Science in Dentistry

Graduate work leading to the degree of Master of Science in Dentistry is offered under rules and regulations established by the Graduate College with specialization in pedodontics, periodontics or orthodontics. The courses are designed to meet the needs of the dentist who desires to devote his entire time to the practice of pedodontics, periodontics or orthodontics or who wishes to broaden his knowledge as a foundation for teaching or research.

Every candidate for a degree is required to participate in commencement exercises unless he is officially excused by the dean of his college. Inasmuch as the date of commencement is known long in advance, students can usually avoid commitments which conflict with graduation
ceremonies. A candidate who is excused from attendance at commencement must pay an *in absentia* fee of $10.00.

**SCHOLARSHIPS**

A number of scholarships have been provided for worthy students enrolled in the University of Nebraska. Many of these awards have been made possible by gifts and grants from individuals and organizations through the auspices of the University of Nebraska Foundation.

Except for those scholarships set up for incoming Nebraska freshmen or for students from other Nebraska colleges and universities, awards are not available until at least 24 hours of credit have been earned at the University of Nebraska.

Although certain scholarships have their own special qualifications, most scholarships require that:

1. The student must present a good scholastic record. In most cases an over-all grade point average of 3.0 or above is required.
2. The student must be worthy of financial assistance. Financial need is an important consideration in many scholarships. Even where financial need has been established, the applicant must show by his academic progress and by good conduct that he is worthy of such aid.

Scholarship applications from resident students are usually accepted in February of each year, the awards being made in the late spring or early summer for the following academic year. Application forms may be obtained at the office of the Dean or the Office of Scholarships and Financial Aids. Applications are not accepted from students who have "incompletes" on their records.

It is the practice to pay one-half of the award at the beginning of each semester.

*Donald Walters Miller Scholarship*

**Donor:** Mrs. Donald Walters Miller, Lincoln, Nebraska  
**Value:** Three or four scholarships or fellowships at $1,000 each  
**Qualifications:** Sophomores or above, or graduate students on recommendation of College. Awards made on basis of scholastic ability, educational and professional objectives, character, temperament and financial need. Candidates must be registered in the University of Nebraska at time of application.  
**Apply by March 1 to the Dean of the College of Dentistry and inquire about letters of application and recommendation.**

*Richard R. Ross Memorial Fellowship in Pedodontics*

**Donor:** Elks Lodge No. 80 of Lincoln, Nebraska  
**Value:** $1,200  
**Qualifications:** A graduate student working toward a graduate degree in dentistry with a major in pedodontics. Apply to the Dean of the College of Dentistry.

*Patterson-Hetlinger-Cary-California Fellowship*

A grant of $600 is provided annually by the M. F. Patterson Dental Supply Company for use in support of research and graduate study. Fel-

* Funds in the custody of the University of Nebraska Foundation.
lowships for graduate students in dentistry are available under this grant. This fellowship does not carry remission of tuition fees.

The University of Nebraska Upperclass Regents Scholarships
Donor: The University of Nebraska through its Board of Regents
Value: $260 each
Qualifications: Sophomore, junior and senior students in the College of Dentistry. Awards made on basis of high scholarship.
Apply to Committee on Scholarships and Financial Aids.

STUDENT LOAN FUNDS

Student loans at the University of Nebraska are available to qualified students who are enrolled in the University and who are in need of financial assistance to continue their college education. Loans are made from some 80 separate funds which have been established by organizations, firms, and individuals, and by the Health Professions Act of 1963. Most of these funds are in the custody of the Board of Regents or the University Foundation and are not regarded as a part of the University's resources. Loan funds are administered in accordance with the wishes of the donors and the policies adopted by the Committee on Scholarships and Financial Aids.

Although loans may be granted from any one of several University loan funds, the following loan funds are specifically designated for the College of Dentistry and are administered as indicated:

Those under the administration of the University of Nebraska Office of Scholarships and Financial Aids, Administration Building 205:
1. The Dr. Clyde W. Davis Student Loan Fund.
2. The W. K. Kellogg Student Loan Fund.
3. The Health Professions Loan Fund.

Those under the administration of the College of Dentistry Student Loan Committee:
1. The Lewis A. and Anna F. Seberg Student Loan Fund.
2. The Wayne F. Larrabee Memorial Fund.
3. The College of Dentistry Alumni Student Loan Fund.
4. The American Dental Trade Association Senior Student Loan Fund.
5. The S. J. Kramer Memorial Fund.
6. The International College of Dentists (U.S.A. Section) Student Loan Fund.
7. Mrs. Kenneth C. Christensen Memorial Fund.
8. American Dental Association—Fund for Dental Education, Dental Student Loan Fund.

Further information regarding loans can be obtained from the Office of Scholarships and Financial Aids, 205 Administration Building.

Students who need to work part time while attending the University of Nebraska should also get in touch with the Office of Scholarships and Financial Aids.
PROFESSIONAL COURSE IN THE COLLEGE OF DENTISTRY

PROFESSIONAL COURSE—136 SEMESTER HOURS OF CREDIT

First Year

First Semester

Anatomy 105—Gross and Developmental (4 cr) Anderson, Yowell
  Lect 2, lab 8. Prereq Zool&Physiol 1 and 2 or equivalent
  Lectures, demonstrations and laboratory dissection of the integument, fascia, nerves, blood vessels, and musculature of back: the meninges and spinal nerve cord; superficial structures of head and neck; brain and meninges; and cervical plexus.

Chemistry 246—Biochemistry (4 cr) Vidaver
  Lect 3, lab 4. Prereq Chem 131 or 231
  Chemistry and metabolism of the proteins, carbohydrates and lipids. Enzymes. Biological oxidations.

Dental Orientation and Ethics 1 (0 cr) Ireland, Staff
  Lect 1
  To motivate students to recognize and fulfill their social and moral responsibilities to their patients, their civic responsibility to the community, and their ethical obligation to the profession of dentistry.

Fixed Denture Prosthesis 31—Denial Materials (2 cr) Stemm
  Lect 2, lab 3
  The study of materials used in dentistry. Particular emphasis is placed on chemical and physical properties, indications for usage, limitations, and methods of manipulation. Modified and simplified dental structures constructed in the laboratory.

Zoology and Physiology 109—Histology and Embryology (5 cr) Anderson, Wotton
  Lect 2, assigned readings, lab 6. Prereq Zool&Physiol 1 and 2 or equivalent
  Dental or other technical students only.
  A course dealing mainly with microscopic anatomy of mammalian organs. Brief consideration is given to embryology with particular reference to origin of tissues.

Second Semester

Anatomy 106—Gross and Developmental (4 cr) Anderson, Yowell
  Lect 2, lab 8. Prereq Anat 105
  Lectures, demonstrations, and laboratory dissection of thorax, axilla, brachial plexus; certain joints; deep parts of head and neck; orbit and eye; ear; and upper extremity. Study of abdomen and lower extremity.

Dental Literature and History 2 (1 cr) Edwards
  Lect 1
  Guidance in the selection of current dental literature. Instruction in history of the profession, familiarizing the student with the development and progress of dentistry and those responsible for it.

Fixed Denture Prosthesis 32—Dental Materials (1 cr) Stemm
  Lect 1, lab 3
  FDP 31 cont’d.

Operative Dentistry 12—Oral Physiology and Dental Anatomy (4 cr) Keys, Sullivan
  Lect 2, lab 5
  Functions of the oral structures. The anatomy of the permanent and primary teeth is studied and their forms carved.

Oral Pathology 20—Oral Histology (2 cr) Anderson
  Lect 1, lab 2
  A study of the composition and microscopic anatomy of the teeth and their supporting tissues.

Prosthodontics 34—Complete Denture Prosthesis (4 cr) Hayes, Steinacher
  Lect 2, lab 8
  Materials and technical procedures of complete denture construction.

Second Year

First Semester

Fixed Denture Prosthesis 73—Dental Ceramics (2 cr) Lynn
  Lect 1, lab 3
  Fabrication of porcelain and acrylic resin veneer crowns and inlays; construction of porcelain units for partial dentures; staining and coloring processes.
Microbiology 111—General Microbiology (5 cr) Georgi, Staff
Lect 3, lab 6. Prereq 1 yr chemistry and 1 yr biological science
An introduction underlying the activities of bacteria and other microorganisms.
For general dental, premedical and pharmacy students. Laboratory work arranged to meet the needs of each specific group.

Operative Dentistry 51—Operative Technology (3 cr) McCabe, Rinne
Lect 2, lab 6
The fundamental principles of operative dentistry; classification of cavities, instrumentation, preparation, and the indication, selection, and use of various restorative materials.

Oral Pathology 61—Oral Roentgenographic Techniques (1 cr) Waggener
Lect 1, lab 3
Development, construction and functions of dental X-ray units. The students are taught technical procedures for exposing dental X-ray films based on the characteristic behavior of X-rays. These procedures result in the best visualization of all areas of dental arches for the purpose of diagnostic interpretation of the exposed film.

Periodontology 63—Preventive Periodontics (1 cr) Bradley, V. Fry
Lect 1
An introduction to periodontology emphasizing detection and removal of local etiological factors in periodontal disease. Lectures, laboratory, and clinical exercises will be used to acquaint the student with technics of oral examination and oral prophylaxis.

Prosthodontics 71—Removable Partial Denture Prosthesis (3 cr) Hayes, Steinacher
Lect 2, lab 6
Materials and technical procedures of partial denture construction.

Zoology and Physiology 121—Vertebrate Physiology (3 cr) Landolt
Prereq Biol 2 or Zool&Physiol 2; Chem 6 or 24, or equivalent
Fundamental processes in the living cell. A comparative study of the functions and metabolisms of muscles, nerves, central and autonomic nervous systems and the special senses.

Second Semester

Fixed Denture Prosthesis 74—Fixed Partial Denture Prosthesis (4 cr) Lynn, Stemm
Lect 2, lab 6
Crown and bridge technology.

Operative Dentistry 52—Clinical Orientation, Local Anesthesia, and Clinical Dentistry (3 cr) Bonness, Bradley, V. Fry, McCabe, Merchant, Rinne, and Staff
Lect 2, clinic 3
Beginning clinical instruction. Clinical operative and prophylactic procedure; problems encountered in clinical practice.

Oral Pathology 62—Oral Roentgenographic Interpretation (1 cr) Waggener
Lect 1
Normal, abnormal, and pathological changes occurring in the oral and dental tissues as depicted in dental X-ray films. Correlation of tissue changes and their roentgenographic appearance.

Oral Pathology 66—Applied Anatomy of the Head and Neck (1 cr, 8 wks) Anderson
Lab 3
Practical application of anatomy of the head and neck with particular reference to local anesthesia, oral infections, surgery, and neoplastic diseases.

Oral Pathology 68—General Pathology (3 cr) Brooks, H. Miller, Papenfuss, Tanner
Lect 2, lab 3
General pathological processes with special reference to inflammation, specific tissue reactions, and stressing the practical application of fundamental pathology to the practice of dentistry. The course utilizes material from the museum of pathological specimens and places emphasis on the neoplastic diseases of the mouth and associated structures.

Zoology and Physiology 122—Vertebrate Physiology (3 cr) Landolt
Lect 2, lab 3
Zool&Physiol 121 cont’d. Blood and circulation, respiration, nutrition, digestion, excretion, ductless glands, and reproduction.
Fixed Denture Prosthesis 145—Clinical Fixed Partial Denture Prosthesis (1 cr) Lynn, Stemm
Clinic 3

Oral Diagnosis 113—Diagnosis and Treatment Planning (2 cr) Ahrens, Knapp
Lect 2, clinic 2
Lectures and clinical periods devoted to the use and value of supportive diagnostic material and methods; study and recording of the basic elements of oral examinations. These recorded studies, with total patient health in mind, are related to probable prognoses and to the development of satisfactory treatment programs.

Operative Dentistry 117—Operative Technology and Clinical Dentistry (3 cr) Bonness, Keys, McCabe, Merchant, Rinne
Clinic 6
The restoration of impaired natural teeth to normal function by operative procedures.

Operative Dentistry 118—Operative Technology and Clinical Dentistry (1 cr) McCabe
Lect 1, lab 1
The fundamental principles of gold foil operations with classification of cavity preparations, instrumentation, and indications for its use. Ultra-speed instruction and demonstration are given.

Orthodontics 131—Orthodontic Technology (2 cr) Holland, Weinstein
Lect 1, lab 2
Manipulation of various types of orthodontic materials, including construction of orthodontic appliances, taking impressions, and making study casts.

Pedodontics 133—Public Health Dentistry (1 cr) Wegener, Assistants
Clinic 4
Discussion of public health agencies, organization, administration and function; public health problems, their prevention and control; public health dentistry; dental health problems, causes, results, prevention, dental caries control, education, economics, professional and lay responsibilities.

Pedodontics 135—Pedodontics and Nutrition (3 cr) Kramer, Sullivan
Lect 1
Brief review of embryology, histology, and anatomy of the primary teeth; child growth and development; management of the child in the dental chair; examination of the child patient; treatment planning and operative procedures for the primary and young permanent teeth; pulp treatments; space maintenance; fractured primary and permanent teeth, physical diagnosis; diet and nutrition, and parent-child and parent-dentist relationship. Reading assignments given to cover the current literature on the subject discussed.

Periodontology 127—Theoretical Periodontology (1 cr) Bradley, V. Fry
Lect 1, clinic 2
Tissue changes in diseases of the supporting tissues of the teeth as observed clinically, microscopically, and roentgenographically. Causes and treatment of the diseases are stressed.

Pharmacology 139—Dental Pharmacology (3 cr) Wells
Lect 2, lab 3, Prereq Zool&Physiol 122
Didactic study of the origin, preparations, actions, uses, and toxicology of selected drugs.

Prosthodontics 141—Prosthodontics Technology (1 cr) Knodle
Lect 1
Lectures and clinical demonstrations on various denture procedures and problems.

Prosthodontics 143—Clinical Prosthodontics (1 cr) Knodle, Leeper, Steinacher
Clinic 3

Second Semester

Fixed Denture Prosthesis 146—Clinical Fixed Partial Denture Prosthesis (1 cr) Lynn, Stemm
Clinic 3
FDP 145 cont’d.

Operative Dentistry 118—Clinical Operative Dentistry (2 cr) Bonness, Keys, McCabe, Merchant, Rinne
Clinic 6
OpDent 117 cont’d.
Oral Diagnosis 114—Diagnosis and Treatment Planning (1 cr) Ahrens, Knapp
Lect 1, clinic 2
Orald 113 cont’d, with added emphasis on the probabilities and implications involved in programming treatments of a more complicated or urgent nature. Students are expected to report on, and discuss, the handling of treatment and management problems. The professional and moral responsibilities of the dental practitioner are related to these problems.

Oral Pathology 124—Oral Pathology (2 cr) Anderson, Waggener
Lect 1, lab 2
Abnormalities of development and the pathological changes in diseases of the teeth and oral tissues. Clinical, microscopic and roentgenographic findings are correlated.

Oral Surgery 126—Pulp Therapy (3 cr) James
Lect 2, lab 3
Diseases of the pulp and methods of removal, including the treatment and filling of pulp canals.

Oral Surgery 122—Operating Room Technic (1 cr) Atkinson
Lect 1
Fundamental principles and methods of operating room technic armamentarium, and set-up for oral surgery; care and sterilization of surgical instruments and supplies.

Oral Surgery 134—Oral Surgery (1 cr) Kleitsch
Lect 1
Introductory course in oral surgery, stressing the fundamentals of surgery of the oral cavity.

Orthodontics 132—Orthodontics (2 cr) Holland, Weinstein
Lect 1, clinic 3
Lectures on the growth and development of the face, principles of occlusion, and the recognition of the development of malocclusion, with emphasis on the practical interception of such development. Clinical assignments will include simple interceptive orthodontic procedures and appliances that can be used by the general practitioner. Orthodontic examinations and appraisals will be made on all receivable pedodontic cases and these will be reappraised each year to study their growth and development.

Pedodontics 136—Clinical Pedodontics (1 cr) Best, Burton, Kramer, Reichenbach, Sullivan, Wilkinson
Clinic 3
Student makes complete mouth examination of each child, including a prophylaxis and complete mouth radiograms; each case is diagnosed and the treatment planned, after which all operative and surgical procedures are carried to completion by the student. The dental student is instructed in the team approach to restorative dentistry by utilizing the services of a chairside assistant. Parents are also informed about other facts concerning the child’s dental health.

Periodontology 128—Periodontal Therapy (1 cr) Bradley, V. Fry
Lect 1, clinic 2
Perio 127 cont’d. Students have an opportunity to make practical application in the infirmary of the fundamentals of diagnosis and treatment of periodontal disease.

Pharmacology 140—Dental Medicine (2 cr) Wells
Lect 2
Physical and chemical properties, pharmacological action, dosage, and methods of administration and application of medicinal agents used in the treatment of oral disease; agents used in the disinfection of materials and instruments used in dentistry; prescription writing.

Prosthodontics 144—Clinical Prosthodontics (1 cr) Knodle, Leeper, Steinacher
Clinic 3
Prosth 143 cont’d.

Summer Session

Clinical Practice (cr arr) Staff
Instruction in all phases of clinical practice is offered in the summer session. It is intended for those students who desire to augment their proficiency in clinical service. Students receiving “Incompletes” in previous clinical courses are urged, and may be required, to register in this course. Credit will be allowed for assignments satisfactorily completed. Clinic hours arranged.
Fixed Denture Prosthesis 187—Clinical Fixed Partial Denture Prosthesis (1 cr) Lynn, Stemn
Lect 1, clinic 2
Basic review of crown and bridge technology, more complex fixed partial denture planning, occlusal revision and a review of new or current techniques.

Operative Dentistry 155—Clinical Operative Dentistry (3 cr) Bonness, Keys, McCabe, Merchant, Rinne
Lect 1, clinic 6
Clinical practice continued. The student is permitted to work with less supervision and is assigned the more complicated cases. Class 3 gold foil demonstration.

Oral Diagnosis 159—Clinical Oral Diagnosis and Treatment Planning (1 cr) Ahrens, Knapp, and Staff
Clinic 2
The student is confronted with many ordinary and complex problems in the evaluation of dental conditions and diseases as they appear in new patient groups. Approaches to the preliminary and final management of these problems in all areas of dentistry are explored, evaluated, and programmed. The relationship to both physical and dental health is carefully considered.

Oral Pathology 169—Oral Medicine (1 cr) Waggener and Staff
Lect 1, inf 2
Diseases of certain organs and systems as related to diseases of the mouth, including diagnosis and treatment of diseases of the oral cavity, the teeth and their supporting tissues.

Oral Pathology 191—Neoplastic Diseases (1 cr) Waggener and Staff
Lect 1, tumor clinic 1
A course designed to make the student aware of the responsibility of the dentist for the early diagnosis of malignant diseases of the oral cavity and adjacent structures.

Oral Surgery 161—Clinical Pulp Therapy (1 cr) James
Clinic 1
Students observe and gain experience in the diagnosis and treatment of diseases of the pulp and periapical region, including removal of the pulp, treatment of and filling of the pulp canal and apicoectomies.

Oral Surgery 163—Oral Surgery and Hospital Training (1 cr) Kleitsch, Stover, Webster
Lect 2
Surgery of the mouth, etiology, diagnosis, and treatment. A junior internship will familiarize a student with hospital routine, care of patients hospitalized for general, as well as for oral, diseases, and produce a better understanding of the problems in the fields of medicine and allied professions.

Oral Surgery 185—General Anesthesia (1 cr) S. Miller
Lect 1
Consideration of the various general anesthetic agents that are administered by inhalation and by intravenous injection.

Clinic 4
Students operate under local or general anesthesia. Observations of and assistance in the operating of impactions, cysts, tumors, alveolectomies, sinus and fractures.

Oral Surgery 173—Maxillo-facial Surgery (1 cr) Singer, Webster
Lect 1
Maxillo-facial problems that are of interest to the general dentist.

Orthodontics 175 (2 cr) Holland, McKee
Lect 1, clinic 2
Ortho 132 cont’d.

Pedodontics 179—Clinical Pedodontics (1 cr) Best, Burton, Kramer, Reichenbach, Sullivan, Wilkinson
Clinic 3
Pedo 136 cont’d.
Periodontics 129—Clinical Periodontics (1 cr) Bradley, V. Fry, Lofgreen
Clinic 2
Clinical management of periodontal disease. The student will be instructed in
some of the more advanced therapeutic procedures used in the treatment of
periodontal disease.

Prosthodontics 183—Clinical Prosthodontics (1 cr) Knodle, Leeper, Steinacher
Clinic 3

Second Semester

Dental Jurisprudence 190 (1 cr) Parker
Lect 1
Legal information which is essential and beneficial to the practicing dentist.
Professional ethics is included.

Fixed Denture Prosthesis 188—Clinical Fixed Partial Denture Prosthesis (1 cr) Lynn,
Stemm
Clinic 2

Operative Dentistry 156—Clinical Operative Dentistry (2 cr) Bonness, Keys, McCabe,
Merchant, Rinne
Clinic 6
OpDent 155 cont'd. The student is expected to rely on his own judgment and is
permitted to work with less supervision.

Oral Diagnosis 160—Clinical Oral Diagnosis and Treatment Planning (1 cr) Ahrens,
Knapp, Staff
Clinic 2
OralDiag 159 cont'd.

Oral Pathology 170—Oral Medicine (1 cr) Waggener and Staff
Lect 1, clinic 2
OralPath 169 cont’d.

Oral Pathology 192—Neoplastic Diseases (1 cr) Waggener and Staff
Lect 1, tumor clinic 1
OralPath 191 cont’d.

Oral Surgery 162—Clinical Pulp Therapy (1 cr) James
Clinic 1
Pulp Therapy 161 cont’d.

Oral Surgery 184—Oral Surgery and Hospital Training (1 cr) Kleitsch, Webster
Lect 1
OralSurg 163 cont’d.

Oral Surgery 166—General Anesthesia (1 cr) S. Miller
Lect 1
OralSurg 165 cont’d. In addition, each student administers the various anesthetic
agents in the surgery clinic.

Oral Surgery 168—Clinical Oral Surgery (2 cr) Kleitsch, Webster
Clinic 4
OralSurg 167 cont’d.

Orthodontics 176—Clinical Orthodontics (2 cr) McKee
Seminar and clinic 3
Prevention and correction of dento-facial anomalies. Each student will be given
clinical assignments in the clinic. Practical applications of previously demon­
strated appliances and comprehensive seminars on growth and development of
the head and face.

Periodontics 130—Clinical Periodontics (1 cr) Bradley, V. Fry, Lofgreen
Clinic 2
Perio 129 cont’d with emphasis on the more complicated periodontal involvement.

Practice Administration 150 (1 cr) Quay
Lect 1
Professional ethics, business methods, dental records, case presentation, and
general management of dental practice.

Prosthodontics 184—Clinical Prosthodontics (1 cr) Knodle, Leeper, Steinacher
Lect 1, clinic 2
Review of basic prosthetic procedures; cleft palate research and treatment con­
cepts, oral rehabilitation, occlusal equilibration in artificial and natural denti­
tions, and adjunctive information specific to other prosthetic problems.

- **Fourth Semester:** 17
COURSES OF INSTRUCTION

In the materials which follow, you will find an arrangement of courses by departments of instruction showing course number, title, and instructors.

Non-Departmental Courses
(Directed by the Dean)

1. Dental Orientation and Ethics ................................. Ireland, Staff
2. Dental Literature and History ................................ Edwards
105. Anatomy .................................................... Anderson, Yowell
106. Anatomy .................................................... Anderson, Yowell
140. Practice Administration ........................................ Quay
149. Dental Jurisprudence .......................................... Parker

Chemistry
Professor Cromwell, Chairman

246. Biochemistry ................................................ Vidaver

Clinical Dentistry, Special
Clinical Dentistry, Special ................................ Dental Staff

Fixed Denture Prosthesis
Associate Professor Lynn, Chairman

31. Dental Materials .............................................. Stemm
32. Dental Materials .............................................. Stemm
73. Dental Ceramics ............................................... Lynn
74. Fixed Partial Denture Prosthesis ................................ Lynn, Stemm
145. Clinical Fixed Partial Denture Prosthesis ......................... Lynn, Stemm
146. Clinical Fixed Partial Denture Prosthesis ......................... Lynn, Stemm
187. Clinical Fixed Partial Denture Prosthesis ......................... Lynn, Stemm
188. Clinical Fixed Partial Denture Prosthesis ......................... Lynn, Stemm

Microbiology
Professor Georgi, Chairman

111. General Microbiology ......................................... Georgi, Staff

Operative Dentistry
Professor Keys, Chairman

12. Oral Physiology and Dental Anatomy .......................... Keys, Sullivan
51. Operative Technology ........................................ McCabe, Rinne
52. Clinical Orientation, Local Anesthesia, Clinical Dentistry .... Bonness, Bradley, V. Fry, McCabe, Merchant, Rinne
115. Operative Technology and Clinical Dentistry .................. McCabe
117. Operative Technology and Clinical Dentistry .................. Bonness, Keys, McCabe, Merchant, Rinne
118. Clinical Operative Dentistry .................................. Bonness, Keys, McCabe, Merchant, Rinne
155. Clinical Operative Dentistry .................................. Bonness, Keys, McCabe, Merchant, Rinne
156. Clinical Operative Dentistry .................................. Bonness, Keys, McCabe, Merchant, Rinne

Oral Diagnosis and Treatment Planning
Professor Knapp, Chairman

113. Diagnosis and Treatment Planning .......................... Ahrens, Knapp
114. Diagnosis and Treatment Planning .......................... Ahrens, Knapp
159. Clinical Oral Diagnosis and Treatment Planning .............. Ahrens, Knapp, Staff
160. Clinical Oral Diagnosis and Treatment Planning .............. Ahrens, Knapp, Staff

Oral Pathology
Professor Waggener, Chairman

20. Oral Histology ................................................ Anderson
61. Oral Roentgenographic Techniques ............................ Waggener
62. Oral Roentgenographic Interpretation .......................... Waggener
66. Applied Anatomy of Head and Neck .................................................. Anderson
68. General Pathology ................................................................. Brooks, Miller, Papenfuss, Tanner
124. Oral Pathology .............................................................................. Anderson, Waggener
169. Oral Medicine .................................................................................. Waggener and Staff
170. Oral Medicine .................................................................................. Waggener and Staff
152. Neoplastic Diseases ......................................................................... Waggener and Staff
153. Neoplastic Diseases ......................................................................... Waggener and Staff

Oral Surgery
Professor Webster, Chairman
122. Operating Room Technic ................................................................ Atkinson
126. Pulp Therapy .................................................................................. James
134. Oral Surgery .................................................................................. Kleitsch
161. Clinical Pulp Therapy ................................................................... James
162. Clinical Pulp Therapy ................................................................... James
164. Oral Surgery and Hospital Training ............................................. Kleitsch, Stover, Webster
165. General Anesthesia ......................................................................... S. Miller
166. General Anesthesia ......................................................................... S. Miller
167. Clinical Oral Surgery ....................................................................... Kleitsch, Webster
168. Clinical Oral Surgery ....................................................................... Kleitsch, Webster
173. Maxillo-facial Surgery ..................................................................... Singer, Webster

Orthodontics
Professor Weinstein, Chairman
131. Orthodontic Technology ............................................................... Holland, Weinstein
132. Orthodontics .................................................................................. McKee, Weinstein
175. Orthodontics .................................................................................. Holland, McKee
176. Clinical Orthodontics ...................................................................... McKee

Pedodontics
Professor Kramer, Chairman
133. Public Health Dentistry ................................................................. Wagenener, Assistants
135. Pedodontics and Nutrition ............................................................. Kramer, Sullivan

Periodontics
Professor Bradley, Chairman
134. Preventive Periodontics ................................................................. Bradley, V. Fry
127. Theoretical Periodontology ............................................................ Bradley, V. Fry
128. Periodontal Therapy ....................................................................... Bradley, V. Fry
129. Clinical Periodontics ....................................................................... Bradley, V. Fry, Lofgreen
130. Clinical Periodontics ....................................................................... Bradley, V. Fry, Lofgreen

Pharmacology
Professor Gibson, Chairman
139. Dental Pharmacology ...................................................................... Wells
140. Dental Medicine .............................................................................. Wells

Prosthodontics
Professor Steinacher, Chairman
34. Complete Denture Prosthesis ........................................................... Hayes, Steinacher
71. Removable Partial Denture Prosthesis ............................................. Hayes, Steinacher
141. Prosthodontics Technology ............................................................. Knodle
143. Clinical Prosthodontics .................................................................. Knodle, Leeper, Steinacher
144. Clinical Prosthodontics .................................................................. Knodle, Leeper, Steinacher
153. Clinical Prosthodontics .................................................................. Knodle, Leeper, Steinacher
154. Clinical Prosthodontics .................................................................. Knodle, Leeper, Steinacher

Zoology and Physiology
Professor Dwight D. Miller, Chairman
109. Histology and Embryology ............................................................. Anderson, Wotton
121. Vertebrate Physiology ..................................................................... Landolt
122. Vertebrate Physiology ..................................................................... Landolt
The College of Dentistry offers a Certificate in Dental Hygiene as well as the degree of Bachelor of Science in Dental Hygiene. The certificate is given following successful completion of a two-year curriculum in dental hygiene; the B.S. in Dental Hygiene follows completion of the two-year curriculum plus two additional years of prescribed courses in the College of Arts and Sciences.

Requirements for Admission

An applicant must meet all the entrance requirements of the College of Arts and Sciences and must be eligible for admission to the University of Nebraska. A four-year college preparatory course in high school is recommended. This should include:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Years</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>3</td>
</tr>
<tr>
<td>Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>One foreign language</td>
<td>2</td>
</tr>
<tr>
<td>Biology</td>
<td>1</td>
</tr>
<tr>
<td>Chemistry</td>
<td>1</td>
</tr>
</tbody>
</table>

Applicants to the dental hygiene curriculum are urged to take the dental hygiene aptitude test, which is given at the University of Nebraska in November and February of each academic year. Further information and application forms for this test can be secured from the Department of Dental Hygiene, College of Dentistry.

If possible, the dental hygiene applicant should work for a month or two, possibly in the summer, as an assistant or receptionist in a dental office. This experience will help to confirm the applicant’s interest in this field of study and work.

Unless the applicant lives a great distance from Lincoln, a personal interview with the Chairman of the Department of Dental Hygiene will be required before the applicant is admitted to the dental hygiene curriculum. When it is not possible for the applicant to come to Lincoln, an interview with a designated person in the vicinity may be arranged.

Admission Procedure

All prospective applicants, whether they be high school seniors or graduates or transfer students from other colleges, should write to the Director of Admissions, 208 Administration Building, to secure forms for making application to the University itself. The application form for the dental hygiene curriculum can be secured from the Department of Dental Hygiene, College of Dentistry. All completed forms (those for making application both to the University and to the dental hygiene curriculum) should be returned to the Director of Admissions, University of Nebraska.

In the selection of candidates for this curriculum, preference will be given to applicants who have successfully completed some college work. All entering classes to date have been composed entirely of candidates who have completed one or two years of general college courses. It seems likely that this policy will continue until facilities are expanded to admit larger classes.

However, entering freshmen who are interested in becoming dental hygienists should indicate their interest in this curriculum on the Uni-
versity application form. This will assure assignment to an adviser who is familiar with the first year course of study recommended for prospective dental hygiene students.

In any group of qualified applicants, priority will be given to residents of the State of Nebraska.

Requirements for the Degree of Bachelor of Science in Dental Hygiene

By using the dental hygiene subjects as a major and by completing all group requirements of the College of Arts and Sciences (except Group C languages) including the requirements of a minor under either Plan A or Plan B (see pages 7 and 8 of the College of Dentistry bulletin), the student can be awarded the degree of Bachelor of Science in Dental Hygiene. The two years of study in dental hygiene must be taken consecutively, but the two additional years in the College of Arts and Sciences can be taken either before or after the two years in dental hygiene. In most instances, however, it is desirable to complete at least one year of general college courses before entering the dental hygiene curriculum. Students electing the degree program will be counseled, individually, throughout the four-year program. Students who wish to earn credits in general college courses at some institution other than the University of Nebraska should write or come to the Department of Dental Hygiene for advice regarding selection of courses.

Expenses for the Course

The fee for the dental hygiene curriculum is $167 per semester for Nebraska residents ($430 per semester for nonresidents). Instruments, uniforms, and laboratory supplies required for the course will amount to approximately $300 for the two-year period. The cost of books and school supplies will average $50 per semester. Room and board in University dormitories currently is $725 per year, but these rates are subject to change.

CURRICULUM IN DENTAL HYGIENE

IN THE

COLLEGE OF DENTISTRY

(68 Semester Hours of Credit)

First Year

First Semester

Anatomy 25—Elementary Human Anatomy (3 cr) Yowell
Lect 2, lab 3
Fundamentals of gross anatomy with particular study of the head and neck.

Chemistry 3—Elementary General Chemistry (3 cr) Staff
Lect 2, lab and quiz 4
Chemical principles: representative elements and their compounds.

Dental Hygiene 11—Dental Assisting (0 cr) Staff
Clinic 6
An introduction to clinical procedures in dentistry.

Dental Hygiene 15—Introduction to Dental Hygiene (3 cr) Warner
Lect 3
A survey of the history, development, and current status of the dental hygiene profession, its subject matter and practice characteristics.
CURRICULUM IN DENTAL HYGIENE

Dental Hygiene 23—Oral Physiology and Dental Anatomy (3 cr) Keys, Sonner, Sullivan
  Lect 2, lab 4
  A study of the form and function of the permanent and primary teeth.

English 1—English Composition (3 cr) Staff
  Instruction and practice in composition and general expression.

Public Health 170c—First Aid (2 cr) Lantz
  Principles of accident prevention and emergency first aid for injuries, poisoning, physical conditions needing immediate care while awaiting medical attention. Instruction in methods used in civilian defense and mass disaster. Offers Red Cross Standard and Advanced First Aid Certificates.

Second Semester

Chemistry 5—The Chemistry of Life Processes (4 cr) Doryland
  Lect 3, lab and quiz 4. Prereq Chem 1 or 3
  A brief survey of organic and biochemistry with emphasis on the chemistry of living tissues and metabolic processes.

Dental Hygiene 46—Dental Prophylaxis (2 cr) Sonner, Warner
  Lect 3, lab 3 (8 wks)
  Clinic 6 (8 wks)

Dental Hygiene 115—Oral Histology (2 cr) Anderson
  Lect 2, lab 2
  A study of the composition and microscopic anatomy of the teeth and their supporting structures.

Microbiology 103—Introduction to Microbiology (4 cr) Staff
  Lect 3, lab 3, Prereq Biol 2 or Bot 2 or Zool&Physiol 2
  Principles and applications of microbiology to everyday living. Relationships of bacteria, viruses, and fungi to plants, animals, and man.

Nutrition 104—Introduction to Nutrition (3 cr) Ganshorn, Gardner, Kies, Williams
  Essentials of an adequate diet; the effect on the total well-being of an individual and its impact on society.

Pharmacology 101—Introduction to Pharmacology (3 cr) Webster, Staff
  Lect 3
  A study of the physical and chemical properties, pharmacological action(s), dosage(s), methods of administration, factors that modify the action of drugs, and untoward effects of medicinal agents used in the treatment of disease. Drug legislation and metrology are also considered.

Second Year

First Semester

Dental Hygiene 47—Clinical Dental Hygiene (2 cr) Sonner, Warner
  Clinic 14
  Continuation of previous semester.

Dental Hygiene 75—Oral Roentgenology (2 cr) Waggener
  Lect 1, lab 1
  A study of the construction and function of dental x-ray units, principles of radiation protection, technical procedures for exposing and processing dental x-ray films.

Dental Hygiene 115—Oral Histology (2 cr) Anderson
  Lect 2, lab 2
  A study of the composition and microscopic anatomy of the teeth and their supporting structures.

Microbiology 103—Introduction to Microbiology (4 cr) Staff
  Lect 3, lab 3, Prereq Biol 2 or Bot 2 or Zool&Physiol 2
  Principles and applications of microbiology to everyday living. Relationships of bacteria, viruses, and fungi to plants, animals, and man.

Nutrition 104—Introduction to Nutrition (3 cr) Ganshorn, Gardner, Kies, Williams
  Essentials of an adequate diet; the effect on the total well-being of an individual and its impact on society.

Pharmacology 101—Introduction to Pharmacology (3 cr) Webster, Staff
  Lect 3
  A study of the physical and chemical properties, pharmacological action(s), dosage(s), methods of administration, factors that modify the action of drugs, and untoward effects of medicinal agents used in the treatment of disease. Drug legislation and metrology are also considered.
Sociology 53—Introduction to Sociology (3 cr) Staff
Association and communication, the nature and types of human groups, the basic elements affecting them, collective behavior, the nature and growth of culture, social organization and social institutions.

Second Semester

Dental Hygiene 48—Clinical Dental Hygiene (2 cr) Sonner, Warner
Clinic 12
Continuation of previous semester.

Dental Hygiene 75—Oral Roentgenology (0 cr) Sonner, Warner
Lab 2
Continuation of First Semester Dental Hygiene 75.
Practice in exposure and processing of dental x-ray films—a continuation from previous semester.

Dental Hygiene 86—Dental Materials and Technics (1 cr) Staff
Lect 1, lab 2
A brief survey, including lectures, demonstrations, and laboratory experience in the composition, uses, preparation and manipulation of materials used in restorative dentistry.

Dental Hygiene 112—Dental Hygiene Seminar (2 cr) Warner
Lect 2
Discussion of dental practice management and economics, ethics and jurisprudence, and the effects of social change on the provision of dental health services. Through library assignments in current journals, experience will be gained in reading and reporting the scientific literature.

Dental Hygiene 116—Oral Pathology (2 cr) Waggener
Lect 2
Introduction to a study of the diseases affecting the oral cavity, particularly the soft tissues. Emphasis upon the role of the dental hygienist in the recognition of abnormal conditions in the mouth.

Dental Hygiene 118—Community Dental Health (3 cr) Warner
Lect 3, field assignments 3 (8 wks)
A survey of the theory and practice of public health, particularly as it applies to dental health; methods used to determine dental health status in communities and procedures for determining the dental health of the public, procedures in health education in the private dental office and in the community. The role of the private practitioner in the improvement and maintenance of dental health in the community is stressed. Field experiences and projects in schools and other community agencies provide the student with an opportunity to apply learned principles to actual practice.

Dental Hygiene 120—Survey of Dental Specialties (2 cr) Staff
Lect 2, clinic 4
A series of lectures designed to acquaint the dental hygiene student with the subject matter and practice of the various dental specialties. Clinical observations and assisting in the various departmental clinics provide opportunities to observe the application of the theory and principles presented in the course portion of the course.

Dental Hygiene 122—Periodontology (1 cr) Bradley and Staff
Lect 1
A brief survey of the nature, causes, and treatment of periodontal diseases with particular emphasis upon the role of the dental hygienist in prevention of diseases of the periodontal structures.

Psychology 70—Elementary Psychology (3 cr) Staff
Fundamental principles of behavior: maturation, learning, motivation, emotion, perception, abilities.

Junior Division
Supervises the orientation, advising, and registration of freshmen.

College of Agriculture and Home Economics
Leading to the degree of Bachelor of Science in Agriculture.
In addition to the resident teaching division, the College of Agriculture is comprised of the Agricultural Experiment Station with headquarters on the Lincoln campus and at outlying stations at North Platte, Scottsbluff, Alliance, Crawford, Mead, and Concord; the Agricultural Extension Service with headquarters in Lincoln, and county or district extension offices at 83 locations in the state; and the University of Nebraska High School of Agriculture at Curtis.

School of Home Economics
Leading to the degree of Bachelor of Science in Home Economics.

College of Arts and Sciences
Leading to the degrees of Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, Bachelor of Science.

School of Fine Arts
Leading to the degrees of Bachelor of Music, Bachelor of Fine Arts, Bachelor of Fine Arts in Education, Bachelor of Music in Education, Master of Music—in the appropriate colleges.

School of Journalism
Leading to the degrees of Bachelor of Arts, Bachelor of Science in Agriculture, Bachelor of Science in Business Administration, Bachelor of Arts in Education—in the appropriate colleges—and to a Professional Certificate in Journalism.

College of Business Administration
Leading to the degree of Bachelor of Science in Business Administration.

College of Dentistry
Leading to the degree of Doctor of Dental Surgery.

College of Engineering and Architecture
Leading to the degrees of Bachelor of Science in Agricultural Engineering, Bachelor of Science in Chemical Engineering, Bachelor of Science in Civil Engineering, Bachelor of Science in Electrical Engineering, Bachelor of Science in Mechanical Engineering.
Supervises Nebraska Engineering Experiment Station, Lincoln.

School of Architecture
Leading to the degree of Bachelor of Architecture.

Graduate College

Graduate School of Social Work
Leading to the degree of Master of Social Work.

College of Law
