Hello Joseph,

Permission granted. Please let me know if I can be of any additional help.

Best,

Dharam.

Hello Dr. Ramnani,

I would like to use slides 4 and 11 from the PTCL, NOS section. That is all I need actually.

Thank you so much for your willingness to help.

Best,

Joe Rohr

Hello Joseph,

Thanks for your enquiry. I have no objection to the use of some of these images for educational purposes in your dissertation. But please do let me know which ones you plan to use. There is some material contributed by other pathologists and I may need to inform them.

Thanks.

Greetings Dr. Ramnani, or Whom It May Concern at WebPathology.com,

I am an MD/PhD student at the University of Nebraska Medical Center, Omaha, NE, looking to include some of the images on your website in my doctoral dissertation exploring oncogenesis in peripheral T-cell lymphomas. I'd like to use some of your PTCL, NOS histology images (<http://www.webpathology.com/case.asp?case=844>) to highlight the necessity of expert pathologists for accurate diagnosis.

I am discovering it is not easy to get permission to use images.

Thank you, and looking forward to hearing from you soon,

Joseph Rohr
